Thank you for purchasing this Panasonic product.
Please read these instructions carefully before operating this product and retain them for future reference.
The images shown in this manual are for illustrative purposes only.
Please refer to Pan European Guarantee Card if you need to contact your local Panasonic dealer for assistance.
Experience an amazing level of multimedia excitement

**Notice for DVB / Data broadcasting / IPTV functions**
- This TV is designed to meet the standards (as of August, 2010) of DVB-T (MPEG2 and MPEG4-AVC(H.264)) digital terrestrial services and DVB-C (MPEG2 and MPEG4-AVC(H.264)) digital cable services. Consult your local dealer for availability of DVB-T services in your area.
- Consult your cable service provider for availability of DVB-C services with this TV.
- This TV may not work correctly with the signal which does not meet the standards of DVB-T or DVB-C.
- Not all the features are available depending on the country, area, broadcaster and service provider.
- Not all CI modules work properly with this TV. Consult your service provider about the available CI module.
- This TV may not work correctly with CI module that is not approved by the service provider.
- Additional fees may be charged depending on the service provider.
- The compatibility with future services is not guaranteed.
- Check the latest information on the available services at the following website. (English only)
Transport only in upright position

Safety Precautions

**Warning**

**Handling the mains plug and lead**
- Insert the mains plug fully into the socket outlet. (If the mains plug is loose, it could generate heat and cause fire.)
- Ensure that the mains plug is easily accessible.
- Do not touch the mains plug with a wet hand. This may cause electrical shock.
- Do not damage the mains lead, damaged lead may cause fire or electrical shock.
  - Do not move the TV with the lead plugged into a socket outlet.
  - Do not place a heavy object on the lead or place the lead near a high temperature object.
  - Do not twist the lead, bend it excessively or stretch it.
  - Do not pull on the lead. Hold onto the mains plug body when disconnecting the plug.
  - Do not use a damaged mains plug or socket outlet.
  - Ensure the TV does not crush the mains lead.

**If you find any abnormality, remove the mains plug immediately!**

**Power source / Installation**
- This TV is designed for:
  - AC 220-240 V, 50 / 60 Hz
  - Table-top use

**Do not remove covers and NEVER modify the TV yourself**
- High voltage components may cause serious electrical shock, do not remove the rear cover as live parts are accessible when it is removed.
- There are no user serviceable parts inside.
- Have the TV checked, adjusted or repaired at your local Panasonic dealer.

**Do not expose the TV to direct sunlight and other sources of heat**
- Avoid exposing the TV to direct sunlight and other sources of heat.

To prevent the spread of fire, keep candles or other open flames away from this product at all times

**Do not expose to rain or excessive moisture**
- To prevent damage which might result in electric shock or fire, do not expose this TV to rain or excessive moisture.
- This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

**Do not place foreign objects inside the TV**
- Do not allow any objects to drop into the TV through the air vents as fire or electric shock may result.

**Do not place the TV on sloped or unstable surfaces, and ensure that the TV does not hang over the edge of the base**
- The TV may fall or tip over.

**Use only original dedicated pedestal / mounting equipment**
- Using an unapproved pedestal or other fixtures may make the TV unstable, risking injury. Be sure to ask your local Panasonic dealer to perform the setup or installation.
- Use approved pedestals (p. 7) / wall-hanging brackets (p. 6).

**Do not allow children to handle SD Card or dangerous parts**
- As with any small object, the SD Card could be swallowed by young children. Please remove SD Card immediately after use and store out of reach of children.
- This product contains possibly dangerous parts that can be breathed in or swallowed by young children accidentally. Keep these parts out of reach of young children.
Safety Precautions | Maintenance

**Caution**

When cleaning the TV, remove the mains plug
- Cleaning an energized TV may cause electric shock.

Remove the mains plug from the wall socket when the TV is not in use for a prolonged period of time
- This TV will still consume some power even in the Off mode, as long as the mains plug is still connected.

Do not expose your ears to excessive volume from the headphones
- Irreversible damage can be caused.

Do not apply strong force or impact to the display panel
- This may cause damage resulting in injury.

**Do not block the rear air vents**
- Adequate ventilation is essential to prevent failure of electronic components.
- Ventilation should not be impeded by covering the ventilation openings with items such as newspapers, table cloths and curtains.
- We recommend that a gap of at least 10 cm is left all around this TV even when placed inside a cabinet or between shelves.
- When using the pedestal, keep the space between the bottom of the TV and the surface where the TV is set.
- If pedestal is not used, ensure the vents in the bottom of the TV are not blocked.

Minimum distance

![Minimum distance diagram](image)

**Maintenance**

First, remove the mains plug from the socket outlet.

**Display panel, Cabinet, Pedestal**

**Regular care:**
Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.

- Do not use a hard cloth or rub the surface too hard. This may cause scratches on the surface.
- Take care not to subject the TV’s surfaces to water or detergent. A liquid inside the TV could lead to product failure.
- Take care not to subject the surfaces to insect repellent, solvent, thinner or other volatile substances. This may degrade surface quality or cause peeling of the paint.
- The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

**For stubborn dirt:**
Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Then wring the cloth and wipe the surface. Finally, wipe away all the moisture.

**Mains plug**

Wipe the mains plug with a dry cloth at regular intervals. Moisture and dust may lead to fire or electrical shock.
Accessories / Options

Standard accessories

Remote Control
- N2QAYB000490
- N2QAYB000672

Batteries for the Remote Control (2)
- R6

Pedestal
⇒ (p. 7)

Operating Instructions
- Accessories may not be placed all together. Take care not to throw them away unintentionally.
- This product contains possibly dangerous parts (such as plastic bags), that can be breathed in or swallowed by young children accidentally. Keep these parts out of reach of young children.

Communication Camera
- TY-CC10W

Warning
- Failure to use a Panasonic bracket or choosing to mount the unit yourself will be done at the risk of the consumer. Always be sure to ask a qualified technician to carry out set up. Incorrect fitting may cause equipment to fall, resulting in injury and product damage. Any damage resulting from not having a professional installer mount your unit will void your warranty.
- When any optional accessories or wall hanging brackets are used, always ensure that the instructions provided are followed fully.
- Do not mount the unit directly below ceiling lights (such as spotlights or halogen lights) which typically give off high heat. Doing so may warp or damage plastic cabinet parts.
- Take care when fixing wall brackets to the wall. Wall mounted equipment shall not be grounded by metal within the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
- To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use.

Optional accessories

Please contact your nearest Panasonic dealer to purchase the recommended optional accessories. For additional details, please refer to the manual of the optional accessories.

Wireless LAN Adaptor
- DY-WL10E-K

Caution
- To use the Wireless LAN Adaptor, an access point needs to be obtained.
- It is recommended to use the Wireless LAN Adaptor with the extension cable.
- To avoid malfunctions caused by radio wave interference, keep the TV away from the devices such as other wireless LAN devices, microwaves and the devices that use 2.4 GHz and 5 GHz signals when using the Wireless LAN Adaptor.
- Depending on the area, this optional accessory may not be available.
- Additional information for Wireless LAN Adaptor and access point may be on the following website.
  (English only)
  http://panasonic.jp/support/global/cs/tv/

Communication Camera
- TY-CC10W

Caution
- This camera can be used on VIERA Connect (p. 16, 79).
- Please also read the manual of the camera.
- Depending on the area, this optional accessory may not be available.
  For details, consult your local Panasonic dealer.

Wall-hanging bracket
- TY-WK3L2RW

The angle of wall-hanging bracket can be adjusted in “zero tilting (vertical)” and “10-degree tilting” for this TV.

Rear of the TV

Screw for fixing the TV onto the wall-hanging bracket (not supplied with the TV)

Depth of screw : minimum 4 mm, maximum 17 mm

Diameter : M6

(View from the side)

Holes for wall-hanging bracket installation
Attaching the pedestal

**Warning**
Do not disassemble or modify the pedestal.
- Otherwise the TV may fall over and become damaged, and personal injury may result.

**Caution**
Do not use any pedestal other than the one provided with this TV.
- Otherwise the TV may fall over and become damaged, and personal injury may result.

Do not use the pedestal if it becomes warped or physically damaged.
- If you use the pedestal while it is physically damaged, personal injury may result. Contact your nearest Panasonic dealer immediately.

During assembly, use only screws supplied and make sure that all screws are securely tightened.
- If sufficient care is not taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV. It might fall over and become damaged and personal injury may result.

Ensure that the TV does not fall over.
- If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.

Two or more people are required to install and remove the TV.
- If two or more people are not present, the TV may be dropped, and personal injury may result.

**Accessories / Options**
- **Bracket**
  - TBL5ZA3017 (TX-L32E30Y, TX-L37E30Y)
  - TBL5ZA3014 (TX-L42E30Y)

1 Assembling the pedestal
Use the assembly screws (A) to fasten the bracket (C) to the base (D) securely.
- Make sure that the screws are securely tightened.
- Forcing the assembly screws the wrong way will strip the threads.

2 Securing the TV
Use the assembly screws (A) to fasten securely.
- Tighten the four assembly screws loosely at first, then tighten them firmly to fix securely.
- Carry out the work on a horizontal and level surface.

Installing / removing remote’s batteries

1 Pull open

2 Close

Note the correct polarity (+ or -)

**Caution**
- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
- Do not mix old and new batteries.
- Replace only with same or equivalent type. Do not mix different battery types (such as alkaline and manganese batteries).
- Do not use rechargeable (Ni-Cd) batteries.
- Do not burn or break up batteries.
- Do not expose batteries to excessive heat such as sunshine, fire or the like.
- Make sure you dispose of batteries correctly.
- Ensure batteries are replaced correctly, there is danger of explosion and fire if battery is reversed.
- Do not disassemble or modify the remote control.
Identifying Controls

Remote Control

1 Standby On / Off switch
   - Switches TV On or Off standby
2 [Media Player] (p. 57)
   - Switches to SD Card and USB device viewing / listening mode
3 [Main Menu] (p. 29)
   - Press to access Picture, Sound, Timer and Setup Menus
4 Aspect (p. 20)
   - Changes aspect ratio
5 Information (p. 18)
   - Displays channel and programme information
6 VIERA TOOLS (p. 28)
   - Displays some special feature icons and accesses easily
7 [VIERA Link Menu] (p. 84)

8 OK
   - Confirms selections and choices
   - Press after selecting channel positions to quickly change channel
   - Displays the Channel List
9 [Option Menu] (p. 19)
   - Easy optional setting for viewing, sound, etc.
10 Teletext (p. 18)
    - Switches to teletext mode
11 Subtitles (p. 18)
    - Displays subtitles
12 Numeric buttons
    - Changes channel and teletext pages
    - Sets characters
    - When in Standby mode, switches TV On (Press for about 1 second)
13 Sound Mute
    - Switches sound mute On or Off
14 Volume Up / Down
15 Input mode selection
   - TV - switches DVB-C / DVB-T / Analogue mode (p. 17)
   - AV - switches to AV input mode from Input Selection list (p. 26)
16 Direct TV Recording (p. 82, 84)
    - Records programme immediately in DVD Recorder / VCR with Q-Link or VIERA Link connection
17 [VIERA Connect] (p. 16, 79)
    - Displays VIERA Connect home screen
18 Exit
    - Returns to the normal viewing screen
19 TV Guide (p. 21)
20 Cursor buttons
    - Makes selections and adjustments
21 Return
    - Returns to the previous menu / page
22 Coloured buttons
   (red-green-yellow-blue)
   - Used for the selection, navigation and operation of various functions
23 Hold
   - Freeze / unfreeze picture (p. 19)
   - Holds the current teletext page (teletext mode) (p. 24)
24 Index (p. 24)
    - Returns to the teletext index page (teletext mode)
25 Last view (p. 20)
    - Switches to previously viewed channel or input mode
26 Channel Up / Down
27 Connected equipment operations
   (p. 27, 56, 58, 76, 87)
Using the On Screen Displays - Operation guide

Many features available on this TV can be accessed via the On Screen Display menu.

Operation guide

The TV will automatically go to Standby mode in the following conditions:
- No signal is received and no operation is performed for 30 minutes in Analogue TV mode
- [Off Timer] is active in the Timer Menu (p. 19)
- No operation is performed for the period selected in [Auto Standby] (p. 33)
* This function does not affect the recording of Timer Programming, Direct TV Recording and One Touch Recording.

Auto power standby function

Channel Up / Down, Value change (when using the F button), Switching the TV On (press either button for about 1 second when in Standby mode)

Changes the input mode

Mains power On / Off switch
- Use to switch the mains power.
  If you turned the TV Off during Standby mode by the remote control last time, the TV will be in Standby mode when you turn the TV On with Mains power On / Off switch.

Remote control signal receiver
- Do not place any objects between the TV remote control signal receiver and remote control.

C.A.T.S. (Contrast Automatic Tracking System) sensor
- Senses brightness to adjust picture quality when [Eco Mode] in the Picture Menu is selected

Power and Timer LED
- Red : Standby
- Green : On
- Orange : Timer Programming On
- Orange (flash) : Recording of Timer Programming, Direct TV Recording or One Touch Recording in progress

Red with orange flash : Standby with Timer Programming On, Direct TV Recording or One Touch Recording
- The LED blinks when the TV receives a command from the remote control.

How to use remote control

Open the main menu

Move the cursor / select the menu item / select from a range of options

Move the cursor / adjust levels / select from a range of options

Access the menu / store settings after adjustments have been made or options have been set

Return to the previous menu

Exit the menu system and return to the normal viewing screen
Basic Connection

External equipment and cables shown are not supplied with this TV.
Please ensure that the unit is disconnected from the mains socket before attaching or disconnecting any leads.

To remove from the TV:

1. Snaps

2. Keep pushing both side snaps

**Note**

- Connect to the TV’s AV1 for a DVD Recorder / VCR supporting Q-Link (p. 82).
- For HDMI-compatible equipment, possible to connect to HDMI terminals (HDMI1 / HDMI2 / HDMI3 / HDMI4) by using HDMI cable (p. 89).
- Q-Link and VIERA Link connection ➔ (p. 80, 81)
- Please also read the manual of the equipment being connected.
- Keep the TV away from electronic equipment (video equipment, etc.) or equipment with an infrared sensor. Otherwise, distortion of image / sound may occur or operation of other equipment may be interfered.
Example 3
Connecting DVD Recorder / VCR and Set top box

TV, DVD Recorder / VCR and Set top box

Connecting to the network environment (Network connections)

To enable the network service functions (VIERA Connect, etc.), you need to connect the TV to a broadband network environment.
- If you do not have any broadband network services, please consult your retailer for assistance.
- Connect with LAN cable (Wired connection) or Wireless LAN Adaptor (Wireless connection).
- Setup of the network connection will start after the tuning (when first using the TV) (p. 13 - 15)

Note
- For more information of the network connections (p. 70)
Auto Setup

Search and store TV channels automatically.
• These steps are not necessary if the setup has been completed by your local dealer.
• Please complete connections (p. 10, 11) and settings (if necessary) of the connected equipment before starting Auto Setup.
For details of settings for the connected equipment, read the manual of the equipment.

1 Plug the TV into mains socket and switch On

2 Select the language

3 Select your country

4 Select the mode you want to tune

5 Select [Start Auto Setup]

* Auto Setup will start to search for TV channels and store them.
The stored channels and sorted channel order vary depending on the country, area, broadcasting system and conditions of signal reception.

Auto Setup screen varies depending on the country you select.
1 [DVB-C Network Settings]

- Depending on the country you select, select your cable provider beforehand by following the on-screen instructions.

<table>
<thead>
<tr>
<th>DVB-C Network Settings</th>

Select Wired or Wireless

[Resize] Wired
[Resize] Wireless

[Resize] Set later

Connection Test

☐ Check network cable connection.
☐ Check acquired IP address.
☐ Check for devices using same IP address.
☐ Check gateway connection.
☐ Check server connection.

☑ succeeded: The test is successful and the TV is connected to the network.

☒ failed: Check the settings and connections, and then select [Retry].

2. Go to the next step

(Press twice)
**[Wireless]**

## Select the connection type

- **Connection Type**
  - Please select network connection type.
  - Search for access point
  - [Wireless] (45)

## [Search for access point]

Access points found automatically are listed.

1. **Select your desired access point**

   - **Available Access Points**
     - [Search for access point](52)
     - [Wireless](54)

     

     | No. | Access Point | Frequency | Encryption | Key Setting |
     |-----|--------------|-----------|------------|-------------|
     | 1   | Access Point A | 11a | WPA   | (00) |
     | 2   | Access Point B | 11gh  | WPA   | (00) |
     | 3   | Access Point C | 11g   | WPA   | (00) |

   - To search access points again
     - (yellow)
   - For the information of the highlighted access point
     - (red)
   - To set manually (p. 75)

2. **Access the encryption key input mode**

   - **Encryption Key Setting**
     - Connection will be made with the following settings:
       - SSID: Access Point A
       - Authentication type: WPA-PSK
       - Encryption type: TKIP
     - Please input the encryption key.

   - Encryption key

3. **Enter the encryption key of the access point**

   - **Access Point Settings**
     - Encryption key
     - [0] 1 2 3 4 5 6 7 8 9 0 .

   - Set characters
     - (yellow)
     - (red)

   - You can set characters by using numeric buttons.

4. **Select [Yes]**

   - **Access Point Settings**
     - Encryption key is set to:
     - XXXXXXXX
     - Select 'Yes' to confirm.
     - Select 'No' to change.

   - Yes
     - No

   - To re-enter the encryption key, select [No].

5. **After the access point setting is finished, perform the connection test**

   - **Connection Test**
     - Check access point connection.
     - Check acquired IP address.
     - Check for devices using same IP address.
     - Check gateway connection.
     - Check server connection.

   - [succeeded]
     - The test is successful and the TV is connected to the network.

   - [failed]
     - Check the settings and connections, and then select [Retry].
     - To set manually, select [Manual] and set each item. For details ➔ (p. 72)

6. **Go to the next step**

   - (Press twice)
Quick Start Guide

Auto Setup

[Quick Setup]
1. Press the Quick Setup button on the remote control.
2. Follow the on-screen instructions.

[Auto Setup]
1. Press the WPS button on the access point until the light flashes.
2. Connect the Wireless LAN Adaptor and the access point.

[WPS(Push button)]
1. Press the WPS button on the access point until its light flashes.
2. When the light is flashing select ‘Connect’ on TV.
   (If you are unsure, please check the instruction manual of the access point.)

3. After the access point setting is finished, perform the connection test

   ![Connection Test]
   - Check access point connection.
   - Check IP address.
   - Check access point IP address.
   - Check gateway connection.
   - Check server connection.

4. Go to the next step
   ![Press twice]

[Select [Home]]
Select [Home] viewing environment to use in your home environment.

![Select your viewing environment]
- Home
- Shop

[Shop] viewing environment (for shop display only)
[Shop] viewing environment is the demonstration mode to explain main features of this TV.

Select [Home] viewing environment to use in your home environment.
- You can return to viewing environment selection screen at the stage of Shop confirmation screen and Automatic Demo Off / On selection screen.

1. Return to viewing environment selection screen
2. Select [Home]

![Automatic Demo]
- Off
- On

To change viewing environment later on, you will need to initialise all settings by accessing Shipping Condition.

Auto Setup is now complete and your TV is ready for viewing.

If tuning has failed, check the connection of the RF cable, and then, follow the on screen instructions.

**Note**
- To check channel list at-a-glance ⇒ “Using TV Guide” (p. 21)
- To edit or hide (skip) channels ⇒ “Tuning and Editing Channels” (p. 39 - 43)
- To retune all channels ⇒ [Auto Setup] (p. 37, 38)
- To add the available TV mode later ⇒ [Add TV Signal] (p. 34, 35)
- To initialise all settings ⇒ [Shipping Condition] (p. 50)

If you connect the Wireless LAN Adaptor later on, the confirmation screen will be displayed for the setup.
- To setup the wireless connection ⇒ (p. 73 - 75)
Using “VIERA Connect”

VIERA Connect is a gateway to the internet services unique to Panasonic and has expanded VIERA CAST features greatly. VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as photos, videos, games, etc. from VIERA Connect home screen.

• This TV has no full browser function and all features of websites may not be available.

1 Turn power on

- Press for about 1 second
- Mains power On / Off switch should be On. (p. 9)

Every time you turn on the TV, VIERA Connect introduction banner appears. The banner is subject to change.

2 Access VIERA Connect

While the banner is displayed

- The button design varies depending on the remote control.

Example : VIERA Connect home screen

- Depending on the usage conditions, it may take a while to read all the data.
- Messages might be displayed before VIERA Connect home screen. Please read these instructions carefully and follow the on screen instructions.

Example : [MORE]

- To go to the next level
- To back to the previous level

■ How to operate VIERA Connect (current as of January, 2011)

- To move the cursor / select the item

- When the key words are displayed on colour bar

- (red) (green) (yellow) (blue)

- To access

- When options with numbers are displayed

- To return to the previous screen

- To return to VIERA Connect home screen

- Video communication (ex. Skype ™ ) requires an exclusive Communication Camera TY-CC10W.

“Optional accessories” (p. 6)

For details, read the manual of the Communication Camera.

- You can connect a keyboard and a gamepad via USB port for character input and playing games in VIERA Connect.

You can also operate the TV with a keyboard or a gamepad other than VIERA Connect features. For more information

“USB connection” (p. 97)

Note

- If you cannot access VIERA Connect, check the network connections (p. 11) and settings (p. 13 - 15).

- For more information of VIERA Connect ➔ (p. 79)
Watching TV

1 Turn power on
- Press for about 1 second
- Mains power On / Off switch should be On. (p. 9)

- VIERA Connect introduction banner appears
  You can access to VIERA Connect and enjoy the various contents.
  ➞ (p. 16)
- To remove this banner, leave for about 5 seconds or press any buttons (except the buttons to access VIERA Connect).
- To set this banner display off ➞ [VIERA Connect Banner] (p. 36)

2 Select the mode
- The selectable modes vary depending on the stored channels (p. 12).
  ① select
  ② access
- Also possible to select the mode pressing the TV button repeatedly on the remote control or side panel of the TV. (p. 9)
- If [TV Selection] menu is not displayed, press the TV button to switch the mode.

- Information banner ➞ (p. 18)

</thead>
</table>

- To cancel ➤ Set to [Off] or turn the TV off.
- To confirm the remaining time ➤ “Display Information banner” (p. 18)
- When the remaining time is within 3 minutes, the remaining time will flash on the screen.
Aspect

Change the aspect ratio (image size)

Enjoy viewing the image at its optimum size and aspect. Programmes usually contain an “Aspect Control Signal” (Widescreen signal, etc.), and the TV will choose the aspect ratio automatically according to the “Aspect Control Signal” (p. 92).

If you would like to change the aspect ratio manually

1 Display Aspect Selection list

2 While the list is displayed, select the mode

- You can also change the mode only using the ASPECT button.
- (Press repeatedly until you reach the desired mode)

[Auto] The best ratio is chosen and the image expanded to fill the screen. For details ⇒ (p. 92)

[16:9] Directly displays the image at 16:9 without distortion (anamorphic).

[4:3 Full] Displays a 4:3 image enlarged horizontally to fit the screen.
- HD signal only

[14:9] Displays the image at the standard 14:9 without distortion.

[Zoom1] Displays a 16:9 letterbox or 4:3 image without distortion.

[Just] Displays a 4:3 image full-screen. Stretching is only noticeable at the left and right edges.

[Zoom2] Displays a 16:9 letterbox (anamorphic) image full-screen without distortion.

[4:3] Displays the image at the standard 4:3 without distortion.

[Zoom3] Displays a 2.35:1 letterbox (anamorphic) image full-screen without distortion. At 16:9, displays the image at its maximum (with slight enlargement).

Note
- Aspect is fixed to [16:9] when [Viewing Mode] is set to [Game] in the Picture Menu.
- Only [16:9] and [4:3] are available in PC input mode.
- Not available in teletext service.
- Aspect mode can be memorized separately for SD (Standard definition) and HD (High definition) signals.

Last view

Switch to previously viewed channel or input mode easily
- Press again to return to the present view.

Note
- Switching channel is not available while the recording of Timer Programming, Direct TV Recording or One Touch Recording is in progress.
- Watching less than 10 seconds is not regarded as the previously viewed channel or input mode.
Using TV Guide

TV Guide - Electronic Programme Guide (EPG) provides an on screen listing of the programmes currently broadcast and the forthcoming broadcasts over the next seven days (depending on the broadcasters).

- This function varies depending on the country you select (p. 12).
- The postcode entry or update may be required to use the GUIDE Plus+ system depending on the country you select.

**“View advertisement” (p. 22)**
- DVB-T and Analogue channels are displayed on the same TV Guide screen. [D] means DVB-T channel and [A] means Analogue channel. There will be no programme listings for Analogue channels.
- When this TV is turned on for the first time, or the TV is switched off for more than a week, it may take some time before TV Guide is completely shown.

1. **Select the mode**
   ➤ (p. 17)
   - TV

2. **View TV Guide**
   - Press again to change the layout ([Landscape] / [Portrait]).
   - View [Landscape] to see many channels.
   - View [Portrait] to see one channel at a time.

   **Example:**
   - [Landscape] (Displays by channel)
   - [Portrait] (Displays by time)

   ![Diagram](https://example.com/diagram.png)

3. **To return to TV**

[Update] in [GUIDE Plus+ Settings] (p. 36)

To change advertisements

To return to TV Guide

Note

To update the information continuously, the TV must be left in Standby mode.
Timer Programming (DVB mode)

Timer Programming is a timer to remind watching or record the programme to the external recorder or the USB HDD.

1 Select the forthcoming programme

- select
- set

LED will turn to orange if Timer Programming is set. (Orange LED will flash if the recording of Timer Programming is in progress.)

- To check / change / cancel a timer programming event
  ➔ “Timer Programming” (p. 44 - 46)

- To return to TV Guide
  BACK/RETURN

2 Select the function ([Ext Rec.], [USB HDD Rec.] or [Reminder])

(Timer Programming screen)

- select
- store

[Ext Rec.] / [USB HDD Rec.] :
  to record the programme to the external recorder or the USB HDD
  When the start time comes, the channel will be switched automatically and the video and audio signals will be output. 2 minutes before the starting time, a reminder message appears if you are watching TV.

[Reminder] :
  to remind you to watch the programme
  When you are watching TV, a reminder message appears 2 minutes before the start time. Press the OK button to switch to the programmed channel.

- If you select the current programme

A confirmation screen asking whether you wish to watch or record the programme will appear.
Select [Timer Programming] and set [Ext Rec.] or [USB HDD Rec.] to record from the time you finish the timer programming event setting.

Das Erste
19:30-20:00
View Timer Programming

- select
- access

Note
- This function is not available in Analogue mode.
- Timer Programming only works reliably if correct time information is received via the signal from the broadcaster or service provider.
- No other channel can be selected while the recording of Timer Programming is in progress.
- When recording programmes to the external recorder, be sure to make the proper settings on the recorder connected to the TV.
  If a compatible recorder with Q-Link, VIERA Link or similar technologies is connected to the TV (p. 82, 83) and the [Link Settings] (p. 33) are completed, no setting of the recorder is required. Also read the manual of the recorder.
- When recording programmes to the USB HDD, be sure to format the USB HDD and enable it for recording in [Recording Setup] (p. 53).
Viewing Teletext

Teletext services are the text information provided by the broadcasters. The features may vary depending on the broadcasters.

What is FLOF (FASTEXT) mode?
In FLOF mode, four differently coloured subjects are situated at the bottom of the screen. To access more information about one of these subjects, press the appropriately coloured button. This facility enables fast access to information on the subjects shown.

What is TOP mode? (in case of TOP text broadcasting)
TOP is a particular improvement of the standard teletext service that results in an easier search and effective guide.
- Fast overview of the teletext information available
- Easy to use step-by-step selection of the topical subject
- Page status information at the bottom of the screen

Available page up / down
To select among subject blocks
To select next subject within the subject block
(After the last subject, it moves to the next subject block.)

What is List mode?
In List mode, four differently coloured page numbers are situated at the bottom of the screen. Each of these numbers can be altered and stored in the TV’s memory. “Store frequently viewed pages” (p. 25)

■ To change mode ➔ [Teletext] (p. 35)

Switch to Teletext

1. Select the page

| **Advanced Settings** | **Intelligent Frame Creation** | Automatically compensates the picture frame rate and removes juddering movements to make the images smooth [Off] / [Mid] / [Max]  
- Depending on the contents, images may be noisy. To prevent the noise, change the setting.  
- This function is not available for selection (default to [Off]) when [Viewing Mode] is set to [Game] or in the mode of PC / network service operations. |
| | **24p Smooth Film** | Automatically compensates the picture frame rate to make the 24p source movie images smooth [Off] / [Mid] / [Max]  
- This is available only for 24p signal input and displayed instead of [Intelligent Frame Creation].  
- This function is not available for selection (default to [Off]) when [Viewing Mode] is set to [Game] or in the mode of PC / network service operations. |
| | **Film Cadence Detection** | Automatically makes the film source movie images clear [Off] / [On]  
- This function is available for the interlaced signal (except when [Viewing Mode] is set to [Game]). |
| | **Resolution Enhancer** | Enhances the picture resolution to make the image sharper [Off] / [Mid] / [Max]  
- This function is available for SD (Standard definition) signal.  
- As for HD (High definition) signal, this function is available when aspect mode is set to [16:9] ([16:9 Overscan] is set to [On]), [4:3 Full] or [Zoom].  
- Not valid on network service operations and Media Player |
| | **16:9 Overscan** | Selects the screen area displaying the image [Off] / [On]  
[On]: Enlarged the image to hide the edge of the image.  
[Off]: Displayed the image in the original size.  
- Set to [On] if noise is generated on the edge of the screen.  
- This function is available when aspect is set to [Auto] (16:9 only) or [16:9].  
- This function can be memorized separately for SD (Standard definition) and HD (High definition) signals.  
- Not valid on PC and VIERA Connect |
| | **DVI Input Setting** | Changes the black level in the image for HDMI input mode with DVI input signal manually [Normal] / [Full]  
- When the DVI input signal from the external equipment, especially from PC, is displayed, the black level may not be suitable. In this case, select [Full].  
- The black level for HDMI input signal will be adjusted automatically.  
- For HDMI input mode with DVI input signal only |
| | **Reset to Defaults** | Press the OK button to reset the present Picture Viewing Mode of the selected input to the default settings |
| **Sound** | **Mode** | Selects the basic sound mode [Music] / [Speech] / [User]  
- The selected mode affects all input signals.  
[Music]: Improves sound quality for watching music videos, etc.  
[Speech]: Improves sound quality for watching news, drama, etc.  
- In Music and Speech modes, you can adjust [Bass] and [Treble] settings, and those settings will be stored for each mode.  
[User]: Adjusts the sounds manually by using the equaliser to suit your favourite sound quality.  
- For the User mode, [Equaliser] will appear on the Sound Menu instead of [Bass] and [Treble]. Select the [Equaliser] and adjust the frequency. [Equaliser] (p. 32) |

</tbody>
</table>
| | **Equaliser** | Adjusts the frequency level to suit your favourite sound quality  
- This function is available when [Mode] is set to [User].  
- Select the frequency and change the frequency level by using the cursor button.  
- If you want to enhance the bass sound, raise the level of the lower frequency. If you want to enhance the treble sound, raise the level of the higher frequency.  
- To reset the levels of each frequency to the default settings, select the [Reset to Defaults] by using the cursor button, and then press the OK button. |
| | **Balance** | Adjusts volume level of right and left speakers |
| | **Headphone Volume** | Adjusts the volume of the headphones |
| | **Surround** | Surround sound settings [Off] / [V-Audio] / [V-Audio Surround]  
[V-Audio] : Provides a dynamic enhancer of width to simulate improved spatial effects  
[V-Audio Surround] : Provides a dynamic enhancer of width and depth to simulate improved spatial effects |
| | **Auto Gain Control** | Adjusts the current volume level if it is extremely different from the previous viewed channel or input mode [Off] / [On] |
| | **Volume Correction** | Adjusts the volume of individual channel or input mode |
| | **Speaker Distance to Wall** | Adjusts the low frequency sound [Over 30cm] / [Up to 30cm]  
- If the back space between the TV and wall is over 30 cm, [Over 30cm] is recommended.  
- If the back space between the TV and wall is within 30 cm, [Up to 30cm] is recommended. |
| | **MPX** | Selects multiplex sound mode (if available)  
[Stereo] : Use this normally  
[Mono] : When stereo signal cannot be received  
[M1] / [M2] : Available while mono signal is transmitted  
- Analogue mode only |
| | **Audio Preference** | Selects the initial setting for audio tracks [Auto] / [Multichannel] / [Stereo] / [MPEG]  
- Selectable options vary depending on the country you select.  
[Auto] : Automatically selects the audio tracks if programme has more than two tracks.  
The priority is given in the following order - Dolby Digital Plus, HE-AAC, Dolby Digital, MPEG.  
[Multichannel] : The priority is given to multi-channel audio track.  
[Stereo] : The priority is given to stereo (2ch) audio track.  
[MPEG] : The priority is given to MPEG.  
- Dolby Digital Plus and Dolby Digital are the methods of coding digital signals developed by Dolby Laboratories. Apart from stereo (2ch) audio, these signals can be multi-channel audio.  
- HE-AAC is a perceptual coding method used to compress digital audio for efficient storage and transmission.  
- MPEG is an audio compression method that compresses audio to the smaller size without any considerable loss of audio quality.  
- Dolby Digital Plus and HE-AAC are the technologies for HD (High definition) programmes.  
- DVB mode only |

|                   | Time Zone                         | Adjusts the time data  
• The time data will be corrected based on GMT.  
• Set to [Auto] to adjust the time automatically according to your area.                                                                                                                      |

* A different menu will be displayed in the mode of PC input, Media Player or network service operations. (p. 52, 58 - 68, 76 - 79)

* Only available items can be selected.
Retuning from Setup Menu

Automatically retune the channels received in the area.
- This function is available if channel tuning is already performed.
- Only the selected mode is retuned. All the previous tuning settings are erased.
- If Child Lock PIN number (p. 47) has been set, the PIN number is required.
- If tuning has not been done completely ➔ [Manual Tuning] (p. 41, 43)

DVB-C channels

1. Select DVB-C ➔ (p. 17)

2. Display the menu

3. Select [Setup]

4. Select [DVB-C Tuning Menu]

5. Select [Auto Setup]

6. Set the Auto Setup settings

7. Start Auto Setup (Settings are made automatically)

For Auto Setup, using the buttons on the side panel of the TV (p. 9)
1. Press repeatedly until [Auto Setup] appears
2. Access [Auto Setup]
3. Set the search mode and scan mode
   + [Av] – [V] (select the item)
   TV (set) AV (store)
4. Start [Auto Setup]

When the operation is completed, the channel at the lowest position will be displayed.

1. select
2. access

1. select
2. access

select

access / store

[Quick] : scans the suitable frequency in your country
- Normally set [Frequency], [Symbol Rate] and [Network ID] to [Auto].
If [Auto] is not displayed or if necessary, enter [Frequency], [Symbol Rate] and [Network ID] specified by your cable provider with numeric buttons.

All DVB-C tuning data will be erased
1. Select DVB-T or Analogue
   ➤ (p. 17)
   TV

2. Display the menu
   MENU

3. Select [Setup]

4. Select [DVB-T Tuning Menu] or [Analogue Tuning Menu]

5. Select [Auto Setup]
   Example:

6. Start Auto Setup (Settings are made automatically)

   DVB-T:

   Analogue:

   • The channel, language, country / region settings are downloaded to a Q-Link or VIERA Link compatible equipment connected to the TV.
   When the operation is completed, the channel at the lowest position will be displayed.
Tuning and Editing Channels (DVB)

You can retune channels or make your favourite channel lists, skip unwanted channels, etc.

1 Select DVB-C or DVB-T

(p. 17)

2 Display the menu

3 Select [Setup]

4 Select [DVB-C Tuning Menu] or [DVB-T Tuning Menu]

5 Select one of the following functions

List favourite DVB channels [Favourites Edit]

Create your favourite channel lists from various broadcasters (up to 4 : [Favourites] 1 to 4).

The DVB Favourites lists are available from “Category” in the Information banner (p. 18) and the TV Guide screen (p. 21).

1 Select a channel to list ( : Encrypted channel)
2 Add it to the Favourites list

DVB-C Favourites Editor

<table>
<thead>
<tr>
<th>Channel (DVB-C)</th>
<th>Category</th>
<th>Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>7</td>
<td>BBC THREE</td>
<td>14:04</td>
</tr>
<tr>
<td>70</td>
<td>CBBC Channel</td>
<td></td>
</tr>
<tr>

BACK/RETURN

Skip unwanted DVB channels, Edit DVB Channels [Channel List]

You can hide unwanted DVB channels.
The hidden channels cannot be displayed except in this function. Use this function to skip unwanted channels.

Select a channel and reveal / hide

All DVB-C Channels

- To reveal all channels
- [Reveal] / [Hide]

To sort channel list:

- To sort channel names in alphabetical order
- To change the category

To edit channels:

- To swap the channel position (if available)
- To move the channel position (if available)
Set DVB channel manually [Manual Tuning]

Normally use [Auto Setup] or [Update Channel List] to retune DVB channels. If tuning has not been done completely or for adjusting the direction of the aerial, use this function.

* All channels found will be added to the Channel List.

**DVB-C:**

1. **Enter the frequency**

   - **DVB-C Manual Tuning**
     - Frequency
     - Symbol Rate
     - Service ID

   - Signal Strength
     - No.
     - Channel Name
     - Type
     - Name

   - Pay TV 0
     - Pay TV 0
     - Stopped
     - Radio 0

2. **Select [Start scan]**

   - ① select
   - ② access

   - Normally set [Symbol Rate] and [Service ID] to [Auto].

**DVB-T:**

1. **Adjust frequency for each channel**

   - **DVB-T Manual Tuning**
     - Frequency
     - Symbol Rate
     - Service ID

   - Signal Quality
     - No.
     - Channel Name
     - Type
     - Name

   - Pay TV 0
     - Pay TV 0
     - Stopped
     - Radio 0

2. **Search**

   - ① select channel
   - ② adjust frequency

   - Set where the level of [Signal Quality] becomes the maximum.

Update DVB channel automatically [Update Channel List]

You can add new channels, delete removed channels, update channel name and position automatically to Channel List.

* Channel List is updated while keeping your settings in [Favourites Edit], [Channel List], [Child Lock], etc.
* Depending on the signal condition, the update may not work properly.

Display a notification message [New Channel Message]

Selects whether to give a notification message when a new DVB channel is found. [Off] / [On]

* Selecting OK will perform [Update Channel List].

Check DVB signal [Signal Condition]

Selects a channel and checks the DVB signal condition.

A good Signal Strength is not an indication of suitable signal for DVB reception.

Please use the Signal Quality indicator as follows:

* **Signal Quality:**
  - Green bar → Good
  - Yellow bar → Poor
  - Red bar → Bad (Check the Terrestrial aerial or cable)

Example:

- These bars show the maximum signal value of the selected channel.

Reduce the DVB-C signal [Attenuator]

If the DVB-C signal is too strong, the interference may occur. In this case set to [On] to reduce the signal automatically.

* This function is available only for DVB-C signal.
Tuning and Editing Channels (Analogue)

You can retune channels or skip unwanted channels, edit channels etc.

1. Select Analogue
   ➤ (p. 17)
   TV

2. Display the menu
   MENU

3. Select [Setup]

Timer Programming

Timer Programming from Menu

The Timer Programming menu allows you to choose programmes that you wish to remind watching or record to the external recorder or the USB HDD. At the correct time, the TV will tune to the correct channel even if the TV is in Standby mode. TV Guide may also be used to set timer programming event (p. 23).

- This function is not available in Analogue mode.
- Timer Programming can store up to 15 events.
- Timer Programming only works reliably if correct time information is received via the signal from the broadcaster or service provider.
- For recording using Timer Programming, the TV must be either On or in standby. For reminders to be displayed, the TV must be On.
- No other channel can be selected while the recording of Timer Programming is in progress.
- It may not be possible to record an encrypted programme (which is copy-protected).
- When recording programmes to the external recorder, be sure to make the proper settings on the recorder connected to the TV.
- If a compatible recorder with Q-Link, VIERA Link or similar technologies is connected to the TV (p. 82, 83) and the [Link Settings] (p. 33) are completed, no setting of the recorder is required. Also read the manual of the recorder.
- If the recorder is not compatible with Q-Link, VIERA Link or similar technologies, make timer programming of the recorder.
- For preparations of a recorder, read the manual of the recorder.
- When recording programmes to the USB HDD, be sure to format the USB HDD and enable it for recording in [Recording Setup] (p. 53).
- Recordings to the external recorders are always in standard definition composite video via SCART, even if the original programme is in high definition.
- 2 minutes before the starting time, a reminder message appears if you are watching TV.

- To remove the message and start the programming
  - To cancel the programming

Select the mode you want to set
(DVBC-C or DVBC-T)
(p. 17)

Display the menu

Select [Timer]

Select [Timer Programming]
Set timer programming event details [Timer Programming]

1 Start making the settings

2 Select the function ([Ext Rec.], [USB HDD Rec.] or [Reminder])
   - select

[Ext Rec.] / [USB HDD Rec.]:
   to record the programme to the external recorder or the USB HDD
   When the start time comes, the channel will be switched automatically and the video and audio signals will be output. 2 minutes before the starting time, a reminder message appears if you are watching TV.

[Reminder]:
   to remind you to watch the programme
   When you are watching TV, a reminder message appears 2 minutes before the start time.
   Press the OK button to switch to the programmed channel.

3 Set the channel, date and time (repeat the operations as below)
Set items in the order of 1 to 4.

1 Channel number
2 Date
   - one day ahead
   - daily or weekly (press repeatedly)
   - [Daily Sun-Sat]: Sunday to Saturday
   - [Daily Mon-Sat]: Monday to Saturday
   - [Daily Mon-Fri]: Monday to Friday
   - [Weekly Sat/Fri/Thu/Wed/Tue/Mon/Sun]: Same time on the same day every week
3 Starting time
4 Ending time

1, 3 and 4 can also be entered with numeric buttons.

[1-7]: 1-7
[8-9]: 8-9
[0]: 0

1: Displayed if the timer programming events are overlapped

Records with subtitles (if available)
   ● To indicate this
      (yellow)
(Press again to remove subtitles)

Duration (automatic display)

[C]: DVB-C
[D]: DVB-T
   ● You cannot change the mode within the menu.

Information of the USB HDD (if available)
To change a timer programming event
Select the programme to be changed
① select  → Correct as necessary (p. 45)
② access

To cancel a timer programming event
Select the programme to be deleted

To record with subtitles (if available)
Select the programme to record with subtitles
① select  → (yellow)
② access
• Each time pressed: auto → off

To change a timer programming event temporarily
Select the programme to be cancelled
① select  → (blue)
② access
• Each time pressed: cancel → stop cancelling

Note
● Check that the LED is orange. If not, timer programmes are not active or not stored.
● Timer Programming reminder messages will remain displayed until one of the following occurs:
   • You press the OK button to view the programme or the EXIT button to cancel the reminder.
   • The timer programming event that the reminder is set for ends.
● “*” identifies that any timer programming events have overlapped. [Ext Rec.] and [USB HDD Rec.] are given priority over [Reminder]. As for the overlapped two or more [Ext Rec.] / [USB HDD Rec.], the first timer programming event starts and finishes as programmed. The next timer programming event can then start.
● The recording of Timer Programming will automatically change to the programmed channel a few seconds before the start time.
● To stop recording the timer programming event directly prior to the start time, it may be necessary to stop the recorder manually.
● The recording of Timer Programming will be performed even if the TV is in REW LIVE TV recording (p. 56) or Pause Live TV recording (p. 85). In this case, these recordings will be cancelled.

Child Lock
You can lock specific channels / AV input terminals and control who watches them.
When the locked channel / input is selected, a message appears; by entering the PIN number, you can watch it.

   (green)

   To jump to the top of the next input
   (blue)

To change the PIN number

1. Select [Change PIN]

2. Enter a new PIN number twice

To set Parental Rating

The availability of this function depends on the country you select (p. 12).
If the DVB programme has the rated information for over the selected age, you have to enter the PIN number to watch (depending on the broadcaster).
Select [Parental Rating] and set an age for the restriction of programmes.

Note

Setting [Shipping Condition] (p. 50) erases the PIN number and all settings.
Input Labels

For easier identification and selection of the input mode, you can label each input mode or skip terminal that is not connected to any equipment.

- To select the input mode [p. 26]

1. Display the menu
   - MENU

2. Select [Setup]
   - Select [Setup]

3. Select [Display Settings]
   - Display Settings

4. Select [Input Labels]
   - Input Labels

5. Select an input terminal
   - Input Labels

- To return to TV

User input
You can name each input mode freely.

1. Select [User input]
   - Select [User input]

2. Set characters (maximum: ten characters)

3. Store
   - Store
Using Common Interface

The Common Interface Module menu provides access to software contained on Common Interface (CI) Modules.

- This function may not be available in some countries or regions.
- Video and audio signals may not be output depending on broadcasts or services.

Although CI module may enable you to view some services, this TV does not guarantee all services (e.g. encrypted pay-TV channels).

Please use only the approved CI module by the broadcaster.

Consult your local Panasonic dealer or broadcasters for more information and conditions of the services.

Caution

- Turn Off Mains power On / Off switch whenever inserting or removing the CI module.
- If a view card and a card reader come as a set, first insert the card reader, then insert the view card into the card reader.
- Insert the module in the correct direction.

Insert the CI module (optional)

- The features that appear on screen are dependent on the contents of the selected CI module.
- Normally encrypted channels will appear. Follow the on screen operation guide.
  If encrypted channel does not appear, perform below.
- For more details, see the manual of the CI module, or check with the broadcaster.

1. Select DVB-C or DVB-T
   - (p. 17)

2. Display the menu
   - MENU

3. Select [Setup]
   - V18 Main Menu
     - Picture
     - Sound
     - Timer
     - Setup

4. Select [Common Interface]
   - Common Interface
     - Access

5. Access Common Interface
   - Common Interface
     - SIAT 1: Module inserted

How to operate services by following the on screen operation guide

Example:
- Select, go
- Symbol: ▲▼
- Coloured characters
  - Coloured button

* On screen operation guide may not correspond to the remote control buttons.
Shipping Condition

Resets the TV to its original condition, i.e. no channels tuned in. All settings other than [USB HDD Setup] are reset (channels, picture, sound settings, etc.).

To retune TV channels only, e.g. after moving house ⇒ “Retuning from Setup Menu” (p. 37, 38)

1 Display the menu

Completed.
Please switch off TV.

[Auto Setup] will automatically start when Mains power On / Off switch is next turned On. (p. 12)
Updating the TV Software

From time to time, a new version of software may become available for download to enhance the performance or operations of the TV. If there is an update available, a notification banner is displayed when the channel has the update information.

- To download
  - If you choose not to download

You can update any new software automatically or update manually.

1. Display the menu
2. Select [Setup]
3. Select [System Menu]
4. Select [System Update]

■ To return to TV
EXIT

■ To update automatically
Select [Auto Update Search in Standby]

- Every time you set, the TV automatically performs a search in standby and downloads an update, if any software updates are available.
- The automatic updating is performed under the following conditions:
  - Standby (TV turned Off with the remote control)
  - Recording of Timer Programming, Direct TV Recording or One Touch Recording is not in progress.

■ To update immediately
1 Select [System Update Search Now]
2 Searches for an update (for several minutes) and displays a corresponding message if any
3 Download

Note
- Download may take for about 60 minutes.
- During software download and update, DO NOT switch Off the TV.
- The message might be the notification beforehand. In this case, the schedule information (the date that the new version can be used) will appear. You can set the reservation for update. The update will not start when the TV is set to Off.

Update TV’s software system [System Update]
Displaying PC Screen on TV

The screen of the PC connected to the TV can be displayed on the TV. You can also listen to PC sound with the audio cable connected.

* For HDMI-compatible PC, possible to connect to HDMI terminals (HDMI1 / HDMI2 / HDMI3 / HDMI4) by using HDMI cable (p. 96).
USB HDD Recording

You can record the digital TV programmes to the connected USB HDD and enjoy playing back in various ways.
- Analogue TV programme cannot be recorded to the USB HDD.
- The data broadcasting (MHEG, etc.), radio broadcasting and the periods without any signal will not be recorded.
- Not all the programmes can be recorded depending on the broadcaster and service provider.
- For more information of the USB HDD ⇒ (p. 95)

Caution
- All data in the USB HDD will be erased in the following cases :
  - When formatting the USB HDD with this TV ⇒ “Setting for USB HDD” (see below)
  - When formatting the USB HDD to use on PC
  - When the TV is repaired due to a malfunction, you may have to format the USB HDD again with this TV to use it. (All data will be erased when formatting.)
  - In order to use the USB HDD with your PC after recording with this TV, format it again on your PC. (Special operations or tools may be necessary to format on your PC. For details, refer to the manual of the USB HDD.)
  - The data recorded to the USB HDD with this TV can only be played back on this TV. You cannot play back its contents with another TV (including the TV of the same model number) or any PCs.

USB HDD connection

Connect the USB HDD to the USB 1 port.

- Be sure to connect the USB HDD to the socket outlet.
- Do not turn off or disconnect the USB HDD during operation. It may cause malfunction of the drive or damage the recorded data.
- To remove the USB HDD safely from the TV ⇒ (p. 19, 54)

Setting for USB HDD

Format and setup the USB HDD with this TV in order to use it for recording.
- Before the settings, connect the USB HDD (see above) and be sure to turn on the USB HDD.
- You cannot change the settings for the USB HDD while recording is in progress.
- Please note that USB HDD will be formatted and all data in it will be erased when you format it.

Display the menu

MENU

1. Select [Setup]

2. Select [Recording Setup]

3. Select [USB HDD Setup] and set

To return to TV
EXIT
Setup the USB HDD [USB HDD Setup]

All the USB devices recognised as a mass storage device will be listed.

- You can only choose one USB HDD for recording at a time.

1 Select the USB HDD for recording and start setup

- To select the USB HDD, use the remote control's Menu button to access the USB HDD Setup.
- Some USB HDD may not be displayed.
- For the information of the highlighted device

2 Caution and confirmation of using USB HDD

Select [Yes] to proceed

- The data recorded to the USB HDD with this TV can only be played back on this TV.
- You cannot playback it with other TV (including the TV of the same model number) or any PCs.
- If your TV is repaired due to a malfunction, the USB HDD may not be available with your repaired TV.

USB HDD Formatting

- To use this device for recording, it must be formatted first. Continue?

3 Confirmation of USB HDD name

- The name for the USB HDD is created automatically. If you want to edit the name, select [Yes].
- You can set characters by using numeric buttons.

4 Confirmation to enable USB HDD for recording

- If the formatted USB HDD for recording already exists, this confirmation screen will be displayed to switch to enable this USB HDD for recording.

- To format
- To edit USB HDD name
- To change the mode

- To remove the USB safely from the TV
- To set “Safety remove USB” in other conditions (p. 19)
Recording the TV programme to USB HDD

You can record the current programme immediately by using [One Touch Recording]. You can also record the current programme constantly for the selected period by using [REW LIVE TV] so that you can go back or pause the current programme.
- Ensure the connection and setup are completed before start recording (p. 53, 54)
- Ensure not to connect or disconnect any USB devices during USB HDD recording. Otherwise the recording may not work properly.
- If the remaining capacity of the USB HDD is run out, the recording cannot be done.

1. Display the menu
   [MENU]

2. Select [Setup]
   [Vifa Main Menu]
   - Picture
   - Sound
   - Timer
   - Setup

3. Select [Recording Setup]

4. Select [One Touch Recording] or [REW LIVE TV]
   - Recording Setup
     - USB HDD Setup
     - One Touch Recording: 180 minutes
     - REW LIVE TV: Off

One touch direct TV recording - What you see is What you record

[One Touch Recording]

Recording the current programme in the USB HDD immediately.

Recording Setup
- USB HDD Setup
- One Touch Recording: 180 minutes
- REW LIVE TV: Off

LED will turn to orange (flash) while One Touch Recording is in progress.
■ To start One Touch Recording
Set the position to “TV”

Start REC

■ To stop recording on the way

■ To playback or delete the recorded contents ⇒ “Recorded TV mode” (p. 65)
Even if One Touch Recording is in progress, you can playback all the contents. However, the recording may not work properly while playback.

Record constantly [REW LIVE TV]
Recording the current programme constantly.

Select [Auto] to start REW LIVE TV

When you select [Auto], the recording will start automatically.
If the other recording is in progress, TV signal condition is bad or when any images are not displayed, this recording will not start.

■ To operate the REW LIVE TV
Set the position to “TV”

To pause

To search backward (up to 90 minutes)

(search backward)

(search backward / forward)

(pause / playback)

(playback)

(stop)

After pausing or searching backward, the following buttons are available to operate.

■ To stop the REW LIVE TV

If you stop the REW LIVE TV, the recorded content for the REW LIVE TV will be deleted.

REW LIVE TV will be stopped and the recorded content deleted automatically in the following conditions:
(Even if REW LIVE TV stops for the following conditions, as long as the setting is [Auto], the new recording will start automatically in a condition that makes the recording available.)

• selected other channels
• selected locked channel
• selected invalid channel
• no TV signal
• when the other recording starts
• when the TV is turned off or standby
Using Media Player

Media Player allows you to enjoy photo, video or music recorded on an SD Card and a USB Flash Memory, and recorded contents on the formatted USB HDD.

VIERA IMAGE VIEWER is the function of the easy viewing for photos or videos recorded on an SD Card on the TV screen by simply inserting into the SD Card slot.

Photo mode: Still pictures recorded by digital cameras will be displayed.
Video mode: (For SD Card or USB Flash Memory) Moving pictures recorded by digital video cameras will be played back.
Recorded TV mode: (For USB HDD) TV programmes recorded in the USB HDD with this TV will be played back.
Music mode: Digital music data will be played back.

- During the operation, audio signal is output from AV1, AUDIO OUT, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. But no video signals are output. AV1 can output audio signal if [AV1 out] is set to [Monitor] in the Setup Menu (p. 33). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 81) and set to use theatre speakers (p. 88).
- [Date] shows the date on which the recording was made by the recording equipment. The file without record of the date is shown "**/**/****".
- The picture may not appear correctly on this TV depending on the recording equipment used.
- Display may take some time when there are many files and folders.
- Partly degraded files might be displayed at a reduced resolution.
- Picture setting may not work depending on the conditions.
- The folder and file names may be different depending on the digital camera or digital video camera used.

To insert or remove the SD Card / USB Flash Memory

- For the USB HDD Connection ➤ (p. 53)

** USB Flash Memory **

- Insert or remove straightly and completely.
- Before removing the USB Flash Memory, ensure to perform “Safely remove USB” (p. 19).
- Connect to the USB 1, 2 or 3 port.

** SD Card **

To insert the SD Card

1. Gently insert the SD Card label surface facing front.
2. Push until a click is heard

To remove the SD Card

- Push the centre of the card

- For the information of the devices ➤ “Devices for recording or playing back” (p. 95)
- For the supported file format ➤ “Supported file format in Media Player and media servers” (p. 93, 94)
1. Insert the SD Card or USB Flash Memory to the TV  
   ➪ (p. 57)  
   • To play back contents in the USB HDD, check the connection and settings are completed. ➪ (p. 53, 54)

2. Start Media Player
   Media Player
   Signal output from all AV terminals will be disabled during Media Player view.  
   Press OK to proceed.  
   Press EXIT to return to TV viewing.
   • Also possible by pressing following buttons.  
   SD CARD
   AV ➪ “Watching External Inputs” (p. 26)

3. Select the device you want to access to
   • If two or more devices are not connected, this step will be skipped.

4. Select the content
   [Photo] ➪ “Photo mode” (p. 59)
   [Video] ➪ “Video mode” (p. 63)
   [Music] ➪ “Music mode” (p. 67)
   [Recorded TV] ➪ “Recorded TV mode” (p. 65)

Note
• You can also access each mode directly by using VIERA TOOLS.  
  ➪ “How to Use VIERA TOOLS” (p. 28)
• [Recorded TV] is available for contents recorded with this TV on the USB HDD.
• Select the appropriate device and content for playing back each file.
• You can use the following buttons during playback.
  Set the position to “TV”

DVD/•VCR
TV ➪
Photo mode

Photo mode will read all “.jpg” extension files in the SD Card or USB Flash Memory.

The thumbnail of all the photos in the SD Card or USB Flash Memory will be displayed.

Example : Thumbnail - [All photos]

To change the back ground music ⇒ “Photo Settings” (p. 60)
To display the information of the highlighted photo

File number / Total file number

To change the size of photos on a thumbnail screen

To return to the previous screen

To sort by folder, recorded date or recorded month

1 Display the view selection

2 Select the sort type

Folder view : Displays the thumbnail grouped by folder
   - The files which are not into a folder will be collected to the folder named “/”.
Sort by Date : Displays the thumbnail grouped by the same date
   - The group of the photos without recorded date is shown as [Unknown].
Sort by Month : Displays the thumbnail grouped by the same month
   - The group of the photos without recorded date is shown as [Unknown].

3 Select one of the sorted groups to display the thumbnail of the selected group

To display the information of the highlighted group

Folder name, date or month
[Single view] - Photos are displayed one at a time.
Select the file from the thumbnail of photos to be viewed

Example:

[Slideshow] - Slideshow will complete when all photos have been viewed within the present thumbnail.

Photo Settings

Setup the settings for Photo mode.

Note:
Picture quality may become lower depending on the slideshow settings.
Picture setting may not work depending on the slideshow settings.

Recorded TV mode

(For USB HDD)
Contents list of the USB HDD will be displayed.

Example : Contents list

[All] : All the recorded contents are listed.
[Not Viewed] : Contents not played back are listed.

: Content not played back (Once you playback the content, this icon will disappear.)
: Content under recording (You can playback this content even if under recording.)
: Protected content cannot be deleted.
: Two or more contents are grouped.

■ Playback the content from the list

1 Select the content

2 Start playback

■ To edit recording content

1 Select and tick the content to edit

2 Display the option menu

3 Select the item and edit

[Create Group] :
Two or more contents can be grouped. Select and tick all the desired contents, and then select [Create Group].

[Release Group] :
Select the created group you want to release, and then select [Release Group]. (To release several groups at once, tick all the desired groups.)

[Exclude from Group] :
Select the group and press the OK button to display the grouped contents. To exclude only the specific content from the group, select it and then select [Exclude from Group]. (To exclude several contents at once, tick all the desired contents.)

[Change Protect Status] :
Select the content you want to protect to delete, and then select [Change Protect Status]. Perform the same way to cancel the protection. (To change the status of several contents at once, tick all the desired contents.)

■ Delete the selected content

1 Select the content

2 Delete the content

3 Confirm

- To select two or more contents

Remaining capacity of the HDD

- This value may not be accurate depending on the condition.
- You can also access the contents list directly by using VIERA TOOLS.
- “How to Use VIERA TOOLS” (p. 28)
- To display the information of the highlighted content

-To select two or more contents

Select the content you want to delete, and then press the OK button. Perform the same way to cancel the deletion.
How to operate in the playback

Example: Playback

- To display / hide the operation guide and information banner
- To operate the playback
  - Rewind
  - Fast forward
- To repeat between the starting point “A” and finishing point “B”
  - Set “A” and “B” in order
  - Press the button twice in a row to turn on the display.
- To change aspect
  - ASPECT
  - STTL
- To display the subtitle (if available)
- To display the selectable settings for the current status (p. 19)

Chapter List

You can start playback from the chapter list you select.
- A recorded content is automatically divided into chapters (about five minutes for each).
- The chapter list is not displayed while the selected content is being recorded.

To play back from the chapter list

- To the previous chapter
- To the next chapter
- To return to list

Note
- Depending on the recorded programmes, some playback operations may not work properly.

Change the device

You can change to the other device directly in the same mode if two or more devices are connected.

1 Display the option menu
2 Select [Drive Select]
3 Select the device you want to access to

If you select the SD Card or USB Flash Memory, also change the contents to enjoy photo, video or music.
- To change the content
- OPTION
Audio output Settings

You can enjoy the multi-channel sound via an amplifier connected to DIGITAL AUDIO OUT or HDMI2 (ARC function) terminal.

* To confirm or change the current sound status ➜ “Confirm or change the current status” (p. 64)

1 Display the menu

2 Select [Sound]

3 Select [SPDIF Selection] and set

Menu | Item | Adjustments / Configurations (alternatives)
---|---|---
Sound | SPDIF Selection | SPDIF : A standard audio transfer file format
Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals [Auto] / [PCM]
[Auto] : Dolby Digital Plus, Dolby Digital and HE-AAC (48 kHz) multi-channel are output as Dolby Digital Bitstream.
DTS is output as DTS.
MPEG is output as PCM.
[PCM] : Digital output signal is fixed to PCM.

Music mode

* Supported file format ➜ (p. 93)

- The thumbnail of music folders in the SD Card or USB Flash Memory will be displayed. Example : Thumbnail - [Folder view]

- To display the information of the highlighted folder

- Playback from Folder view

  All the files in the selected folder will be played back.

1 Select the folder

2 Start playback
**Playback from File view**
Selected file will be played back.

1 **Select the folder**
   - ① select
   - ② access

2 **Select the file**
   Example: Thumbnail - File view

3 **Start playback**
   - (red)

   - To display the information of the highlighted file

   ![File number / Total file number](image)

   ![Operation guide](image)

**How to operate in the playback**
Example: Playback

- To display / hide the operation guide
- To operate the playback
  - Rewind
  - Pause / Playback
  - Fast forward
  - Stop
- To the previous track
  - (red)
- To the next track
  - (green)
- To return to thumbnail
  - BACK/RETURN

**To change the device** ⇒ “Change the device” (p. 62)
**To change the content in the current device** ⇒ “Change the contents” (p. 62)

---

**Music Setup**

Setup the setting for Music mode (only available in the thumbnail view).

1 **Display the option menu**
   - OPTION

2 **Select [Music Setup]**
   - Option Menu
     - Music Setup

3 **Set**
   - Repeat Menu
     - Repeat: One

   - [Folder]: Playback repeat within the selected folder
   - [One]: Playback repeat of the selected one file
Using Network Services (DLNA / VIERA Connect)

DLNA®
This TV is a DLNA Certified™ product.
DLNA (Digital Living Network Alliance) is a standard that makes DLNA Certified digital electronics easier and more convenient to use on a home network. To learn more, visit www.dlna.org.
It allows you to share photos, videos and music stored in the DLNA Certified media server (for example, PC with windows 7 installed, DIGA Recorder etc.) connected to your home network, and enjoy the contents on the TV screen.
It also allows you to control the TV with the DLNA Certified equipment connected to your home network. (DLNA Remote Control)
- For the supported file format ➔ (p. 93, 94)
- AVCHD and DivX files are not supported by DLNA functions of this TV, but can be played by Media Player (p. 57).

■ Media server
Store photos, videos or music into the DLNA Certified media server, and then you can enjoy them on the TV.

To use a PC as a media server
Prepare the PC with Windows 7 or ensure the server software is installed on the PC.
"Windows 7" and "TwonkyMedia server 6 (installed on the PC with Windows 7, Windows Vista or Windows XP)" are the server software that has been tested for compatibility with this TV (current as of January, 2011). Any other server software have not been tested with this TV, therefore compatibility and performance cannot be assured.
- Windows 7
  The setup for homegroup settings of Windows 7 is required. For details, refer to the help functions of Windows 7.
- TwonkyMedia server
  "TwonkyMedia server" is the product of PacketVideo Corporation.
  To obtain the Installation Guides for installing and setting "TwonkyMedia server", visit the website of TwonkyMedia.
  Additional fees may be charged to obtain server software.

Note
- For more information about the server software, please consult each software company.
- When server software for the media server is installed on the PC, the data may be at risk of being accessed by other people. Please take care of the settings and connections under the network circumstances at the office, hotel or even at home when not using a router.

To use a DLNA compatible DIGA Recorder as a media server
By connecting a DLNA compatible DIGA Recorder to your home network, you can enjoy and control it as one of the media servers.
- Please refer to the manual of your DIGA Recorder to confirm whether the recorder is compatible with DLNA.

■ DLNA Remote Control
You can control the TV with the DLNA Certified equipment.
- To use this function, set the [Network Link Settings] ➔ (p. 71)
- "Windows 7" is the OS that has been tested for compatibility of this TV (current as of January, 2011). For the operations, refer to the help functions of Windows 7.

Network connection ➔ “Example 1” or “Example 2” in “Network connections” (p. 70)

Network setup ➔ (p. 71 - 75)

DLNA operations ➔ (p. 76 - 79)

VIERA Connect
VIERA Connect is a gateway to the internet services unique to Panasonic and has expanded VIERA CAST features greatly.
VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as photos, videos, games, etc. from VIERA Connect home screen.
- This TV has no full browser function and all features of websites may not be available.

Network connection ➔ “Example 1” or “Example 3” in “Network connections” (p. 70)

Network setup ➔ (p. 71 - 75)

VIERA Connect operations ➔ (p. 16)
Network connections

To use only DLNA features, you can operate the features without broadband network environment.
To use VIERA Connect features, you need a broadband network environment.
- If you do not have any broadband network services, please consult your retailer for assistance.
- Set up and connect any equipment required for the network environment. You cannot make settings for the equipment on this TV. Read the manual of the equipment.
- Required speed (effective): at least 1.5 Mbps for SD and 6 Mbps for HD picture quality, respectively. If the transfer speed is not enough, contents may not be played back properly.

Example 1
(For DLNA and VIERA Connect)

- Ensure to use a LAN straight cable for this connection.
- If your modem has no broadband router functions, use a broadband router.
- If your modem has broadband router functions but there are no vacant ports, use a hub.
- Ensure that the broadband routers and hubs are compatible with 10BASE-T / 100BASE-TX.
- If you use the equipment compatible only with 100BASE-TX, category 5 LAN cables are required.

Example 2
(For DLNA)

You can connect the TV and the equipment directly to use DLNA features.

- Ensure to use a LAN cross cable for this connection.

Example 3
(For VIERA Connect)

You can connect the TV and the telecommunication equipment directly to use VIERA Connect features.

Note

- Contact your Internet Service Provider (ISP) telecommunications company for further assistance regarding the network equipment.
- Confirm the terms and conditions of the contracts with your Internet Service Provider (ISP) or telecommunications company. Depending on the contracts, additional fees may be charged or multiple connections to the internet may be impossible.
Network Setup

- Ensure the connections are completed before starting Network Setup.
  
  "Network connections" (p. 70)

1 Display the menu

2 Select [Setup]

3 Select [Network Setup]

To return to TV

Network Link settings

Sets the link settings to control this TV from the network equipment via the network.

1 Select [Network Link Settings]

<tr>
<td>Network Link Settings</td>
<td></td>
</tr>
<tr>
<td>Software Update</td>
<td></td>
</tr>
<tr>
<td>MAC Address</td>
<td>ab-cd-ef-gh-ij-kl</td>
</tr>
</tbody>
</table>

If you make the network connection like “Example 2” (p. 70), you do not have to set [Acquire DNS Address], [Proxy] and [Proxy Port].

2 Select [IP/DNS Settings] and set the items

<table>
<thead>
<tr>
<th>IP/DNS Settings</th>
<th>Access / store</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acquire IP Address</td>
<td>Auto</td>
</tr>
<tr>
<td>IP Address</td>

</tr>
<tr>
<td>Gateway</td>
<td></td>
</tr>
<tr>
<td>Acquire DNS Address</td>
<td>Auto</td>
</tr>
<tr>
<td>DNS Address</td>
<td></td>
</tr>
<tr>
<td>Proxy Settings</td>
<td>Access</td>
</tr>
</tbody>
</table>

[Proxy]

Sets Proxy address.

This is the address of the relay server that is connected to the target server instead of the browser and sends data to the browser. Setting is required if specified by the provider.

1. Select [Proxy]

<table>
<thead>
<tr>
<th>Proxy Settings</th>
<th>Access / store</th>
</tr>
</thead>
<tbody>
<tr>
<td>Proxy</td>
<td></td>
</tr>
<tr>
<td>Proxy Port</td>
<td>0</td>
</tr>
</tbody>
</table>

2. Enter the address

<table>
<thead>
<tr>
<th>Proxy Settings</th>
<th>Access / store</th>
</tr>
</thead>
<tbody>
<tr>
<td>Proxy</td>
<td></td>
</tr>
<tr>
<td>Proxy Port</td>
<td></td>
</tr>
</tbody>
</table>

You can set characters by using numeric buttons.

[Proxy Port]

Sets Proxy port number.

This number is also specified by the provider with the Proxy address.

1. Select [Proxy Port]
4 Select [Connection Test] and access to test

Wireless connection settings

This setting is for the network connection by using the Wireless LAN Adaptor. (Wireless connection)

- Confirm the encryption key, settings and positions of your access point before starting setup. For details, read the manual of the access point.

1 Select [Network Type] and set to [Wireless]

2 Select [Access Point Settings]

3 Select the connection type and set

Connection Type
- [WPS(Push button)]
- [WPS(PIN)]
- [Search for access point]
- [Manual]

- Performs automatic testing of the network connection for the TV. (It takes a while to test.)

☑ : succeeded
- The test is successful and the TV is connected to the network.

☒ : failed
- Check the settings and connections, and then perform this function again.
4 Select [Connection Test] and access to test

Network Setup

- Connection Test: Access
- Network Type: Wireless
- Access Point Settings
- IP/DNS Settings
- Network Link Settings
- Software Update
- MAC Address: ab-cd-ef-gh-ij-kl

Connection Test

1. Check access point connection.
2. Check acquired IP address.
3. Check for devices using same IP address.
4. Check gateway connection.
5. Check server connection.

Perform automatic testing of the network connection for the TV. (It takes a while to test.)

☑: succeeded
- The test is successful and the TV is connected to the network.

☒: failed
- Check the settings and connections, and then perform this function again. If you continue to have difficulty, please contact your internet service provider.

[WPS(Push button)]

1) Please press the WPS button on the access point until the light flashes.
2) When the light is flashing select 'Connect' on TV.

If you are unsure, please check the instruction manual of the access point.

[WPS(PIN)]

1 Select your desired access point

Available Access Points

<table>
<thead>
<tr>
<th>No</th>
<th>SSID</th>
<th>Wireless Type</th>

<td>Access Point C</td>
<td>802.11a/b/g/n</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- To search access points again
- For the information of the highlighted access point
- To set manually

2 Enter the PIN code to the access point, and then select [Connect]

[WPS(PIN)]

Please register the following PIN codes on the access point.

PIN code: 12345678
Select 'Connect' after entering and saving the settings on the access point.

[Search for access point]

Access points found automatically are listed.

1 Select your desired access point

Available Access Points

<table>
<thead>
<tr>
<th>No</th>
<th>SSID</th>
<th>Wireless Type</th>
<th>Encrypt</th>
<th>Encryption</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Access Point A</td>

<td>Access Point C</td>
<td>802.11a/b/g/n</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- To search access points again
- For the information of the highlighted access point
- To set manually
**2 Access the encryption key input mode**

**Encryption Key Setting**
Connection will be made with the following settings:
SSID: Access Point A
Authentication type: WPA-PSK
Encryption type: TKIP
Please input the encryption key.

- If the selected access point is not encrypted, the confirmation screen will be displayed. It is recommended to select the encrypted access point.

**3 Enter the encryption key of the access point (Set characters one by one)**

- You can set characters by using numeric buttons.

**4 Select [Yes]**

- To re-enter the encryption key, select [No].

---

**[Manual]**

You can setup SSID, authentication type, encryption type, and encryption key manually. Follow the on screen instructions and set manually.

- When you use 11n (5 GHz) for the wireless system between the Wireless LAN Adaptor and access point, please select [AES] for the encryption type.

---

**Update TV’s software**

Accesses the specific website to update TV’s software and search if any software updates are available.

**Select [Software Update]**

- Follow the on screen instructions

---

**Note**

**[MAC Address]**
- MAC address is a unique address that identifies hardware in the network.
  (for information only)
Using DLNA® features

Ensure the preparation of media server, network connections and network settings are completed.

See "Media server" (p. 69), "Network connections" (p. 70), [Network Setup] (p. 71 - 75)

1 Display icons of the feature

2 Select [Media Server]

3 Select one of the media servers you want to access

Example: Media server list

Available media servers

Total listed number

4 Select the file

Example: File list

- Depending on the condition of media server, you may need to select the folder before selecting the file.
- To display the information of the highlighted file

Note

- Non-playable files are also listed but cannot be selected.
- Turn the TV off, and then on again when changing or reconnecting the network connection.
- You can use the following buttons during playback.
  Set the position to "TV"

DVD/VCR, TV

Audio/Video karaoke
**For photo file**

**[Single view]** - Photos are displayed one at a time.

Example:

- To display / hide the operation guide
- To operate Single view
  - To the previous photo
  - To the next photo
- Slideshow
- Stop
  - (return to list)

**[Slideshow]** - Slideshow will complete when all photos have been viewed within the list.

1. Select the photo file from the list for the first view
2. Start Slideshow

- To display / hide the operation guide
- To pause (return to Single view)
- To return to list

**For video file**

**Playback** - Playback will start.

Example: Playback

- To display / hide the operation guide and information banner
- To the previous content
  - (red)
- To the next content
  - (green)
- To change aspect
  - ASPECT
- To operate the playback
  - [Manual skip]
  - Press to skip forward about 30 seconds
  - Press and hold to skip backward about 15 seconds
- Pause / Playback
  - Fast forward
  - Stop
- To return to list

**For music file**

**Playback** - Playback will start

Example: Playback

- To display / hide the operation guide
- To operate the playback
  - Rewind
  - [Manual skip]
  - Press to skip forward about 30 seconds
  - Press and hold to skip backward about 15 seconds
  - Pause / Playback
  - Fast forward
  - Stop
- To the previous track
  - (red)
- To the next track
  - (green)
- To return to list

---

77
For DIGA Recorder

Control the DIGA Recorder

The screen of the DIGA Recorder will be displayed. You can control the functions of the DIGA Recorder with this TV remote control according to the operation guide.

Example:

- Before operating, register this TV on the DIGA Recorder.
- For details, read the manual of the DIGA Recorder.

Option menu for each content

Setup the settings for Photo, Video and Music file operations.

1 Display the option menu

2 Select [Slideshow Settings], [Video Setup] or [Music Setup]

3 Select the items and set

<table>
<thead>
<tr>
<th>Slideshow Settings</th>
<th>Video Setup Menu</th>
<th>Music Setup Menu</th>

|---------------|--------------------------------|
| Repeat        | Playback repeat within the selected file [Off] / [On]

| Repeat | Playback repeat [Off] / [Folder] / [One]
|--------|----------------------------------------|
| [Folder] | Playback repeat within the selected folder
| [One] | Playback repeat of the selected one file
Audio output settings (for video contents)

You can enjoy the multi-channel sound via an amplifier connected to DIGITAL AUDIO OUT or HDMI2 (ARC function) terminal.

* To confirm or change the current sound status (p. 64)

1 Display the menu

MENU

2 Select [Sound]

3 Select [SPDIF Selection] and set

Menu | Item | Adjustments / Configurations (alternatives)
--- | --- | ---
Sound | SPDIF Selection | SPDIF: A standard audio transfer file format
Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals [Auto] / [PCM]
[Auto]: Dolby Digital Plus, Dolby Digital and HE-AAC (48 kHz) multi-channel are output as Dolby Digital Bitstream.
MPEG is output as PCM.
[PCM]: Digital output signal is fixed to PCM.

VIERA Connect

You can access VIERA Connect and enjoy various network contents.

* VIERA Connect requires a broadband internet connection. Dial-up internet connections cannot be used.
* Ensure the network connections and network settings are completed.
* “Network connections” (p. 70), [Network Setup] (p. 71 - 75)
* For details about VIERA Connect operation “Using “VIERA Connect”” (p. 16)
* Setup menu (Items in [Setup] may change without notice.)

<table>
<thead>
<tr>
<th>Customize HomeScreen</th>
<th>Changes the position of each services on VIERA Connect home screen</th>
</tr>
</thead>
<tbody>
<tr>
<td>My Account</td>
<td>Confirms or removes the account information of the TV you entered on VIERA Connect</td>
</tr>
<tr>
<td>Lock</td>
<td>Sets to restrict access to some services</td>
</tr>
<tr>
<td>Beep</td>
<td>Sets beep sound On or Off when operating VIERA Connect</td>
</tr>
<tr>
<td>Notices</td>
<td>Displays the information of VIERA Connect</td>
</tr>
</tbody>
</table>

Note

* Be sure to update the software when a software update notice is displayed on the TV screen. If the software is not updated, you will not be able to use VIERA Connect.
* You can update the software later manually (Software Update in [Network Setup]) (p. 75)
* VIERA Connect home screen is subject to change without notice.
* The services through VIERA Connect are operated by their respective service providers, and service may be discontinued either temporarily or permanently without notice. Therefore, Panasonic will make no warranty for the content or the continuity of the services.
* Some content may be inappropriate for some viewers.
* Some content may only be available for specific countries and may be presented in specific languages.
* Depending on the connection environment, the internet connection may be slow or may not be successful.
* During the operation, audio signal is output from AV1, AUDIO OUT, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. But no video signals are output. AV1 can output audio signal if [AV1 out] is set to [Monitor] in the Setup Menu (p. 33). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 81) and set to use theatre speakers (p. 88).
* You can restrict access to VIERA Connect (Child Lock) (p. 46)
* Turn the TV off, and then on again when changing or reconnecting the network connection.
Link Functions (Q-Link / VIERA Link)

Q-Link connects the TV and DVD Recorder / VCR, and enables easy recording, playback, etc. (p. 82)

VIERA Link (HDAVI Control™) connects the TV and the equipment with VIERA Link function, and enables easy control, convenient recording, playback, energy saving, creating home theatre, etc., without complicated setting. (p. 83 - 88)

You can use Q-Link and VIERA Link functions together.

- This TV supports “HDAVI Control 5” function. But available features are depending on the connected equipment’s version of HDAVI Control. Please refer to the manual of the equipment to confirm the version.
- VIERA Link features may be available even with other manufacturers’ equipment supporting HDMI CEC.

Summary of Q-Link and VIERA Link features

Q-Link (SCART connection)

Connection

- Use fully wired HDMI compliant cable.
- Connect the equipment supporting VIERA Link to the TV’s HDMI1, HDMI2, HDMI3 or HDMI4 terminal via an HDMI cable.
- About HDMI cable for connecting Panasonic HD Video Camera or LUMIX Camera, read the manual of the equipment.

**Connection**

- To use Player theatre / Blu-ray Disc theatre:

   ![Connection Diagram]

   - Use fully wired HDMI compliant cable.
   - Connect the equipment supporting VIERA Link to the TV’s HDMI2, HDMI3 or HDMI4 terminal via an HDMI cable.
   - Use fully wired SCART cable.
   - If you use a SCART cable for audio output, connect the equipment supporting VIERA Link to the TV’s AV1 terminal and set [AV1 out] to [Monitor] in the Setup Menu (p. 33).
   - Use the optical digital audio cable, RCA cable or SCART cable for audio output from the TV.

   - *1: Available with the equipment which has “HDAVI Control 2 or later” function.
   - *2: Available with the equipment which has “HDAVI Control 3 or later” function.
   - *3: Available with the equipment which has “HDAVI Control 4 or later” function.
   - *4: Available with DIGA Recorder which has HDD.
   - *5: This function is available regardless of the version of HDAVI Control when the recorder supports Q-Link and is connected via SCART cable.
   - *6: While playing a disc
   - *7: Except for watching a disc
   - *8: If the connected equipment has “HDAVI Control 5” function, you do not have to use this audio cable (Optical digital audio cable, RCA cable or SCART cable). In this case, connect the equipment to the TV’s HDMI2 terminal via an HDMI cable.

VIERA Link Control of compatible equipment ((VIERA Link Control) p. 86)

- Table below displays maximum number of compatible equipment that can be controlled by VIERA Link Control.
- This includes connections to equipment already connected to the TV.
- For example, DIGA Recorder connected to Amplifier which is connected to the TV via an HDMI cable.

<table>

Q-Link

Preparations
- Connect the DVD Recorder / VCR with the following logos:
  “Q-Link”, “NEXTVIEWLINK”, “DATA LOGIC (a trademark of Metz Corporation)”, “Easy Link (a trademark of Philips Corporation)”, “Megalogic (a trademark of Grundig Corporation)”, “SMARTLINK (a trademark of Sony Corporation)”
- Q-Link connection (p. 80)
- Use fully wired SCART cable.
- Set up the DVD Recorder / VCR. Read the manual of the recorder.
- Q-Link terminal setup in the Setup Menu ➔ [AV1 out] (p. 33)
- Download preset - channel, language, country settings ➔ “Preset download” (see below)

Features available

Preset download

Channel, language, country settings can be downloaded to the recorder.
- DVB-C channel settings cannot be downloaded.
- To download settings ➔ [Download] (p. 34) or [Auto Setup] (p. 38) or “Auto Setup” - when first using the TV (p. 12, 13)

Direct TV Recording - What you see is What you record

Recording the current programme in DVD Recorder / VCR immediately.

<table>
<thead>

</tbody>
</table>

- When Direct TV Recording is performed, the recorder is automatically turned on if it is in Standby mode.
- Changing channel or turning off the TV is available while the recorder is recording from its own tuner.
- Changing channel is not available while the recorder is recording from the TV tuner.

To stop recording

Unlock the tuner

Tuner Locked
Press EXIT to unlock and stop recording

Power on link and Easy playback

Set Power on link [On] in the Setup Menu to use this function ➔ [Power on Link] (p. 34)
When DVD Recorder / VCR starts playback or direct navigator / function menu for the equipment are activated, the TV is turned on and input mode is switched automatically so that you can view the content. (Only when the TV is in Standby mode.)

Power off link

Set Power off link [On] in the Setup Menu to use this function ➔ [Power off Link] (p. 34)
When TV is set to Standby mode, the recorder is also automatically set to Standby. (Only when the videocassette or disc is not active.)
- This function will work even if the TV enters Standby mode automatically by auto power standby function.

Note
- Some recorders are not applicable. Read the manual of the recorder.
**VIERA Link “HDAVI Control”**

*Enjoy additional HDMI Inter-Operability with Panasonic products which have “HDAVI Control” function.*

This TV supports “HDAVI Control 5” function.

Connections to the equipment (DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc.) with HDMI and SCART cables allow you to interface them automatically (p. 80, 81).

These features are limited to models incorporating “HDAVI Control” and “VIERA Link”.

- Some functions are not available depending on the equipment's version of HDAVI Control. Please confirm the connected equipment's version of HDAVI Control.
- VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added.
- As such, its operation with other manufacturers' equipment that supports HDMI CEC cannot be guaranteed.
- Please refer to individual manuals for other manufacturers' equipment supporting VIERA Link function.
- About applicable Panasonic equipment, consult your local Panasonic dealer.

**Preparations**

- Connect the equipment supporting VIERA Link.
- VIERA Link connection (p. 80, 81)
- Use fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilized.
  - Recommended Panasonic's HDMI cable part number :
    - RP-CDHS15 (1.5 m)
    - RP-CDHS30 (3.0 m)
    - RP-CDHS50 (5.0 m)
- Use fully wired SCART cable.
- Set up the connected equipment. Read the manual of the equipment.
- For optimal recording, the settings of the recorder may need to be changed. For details, read the manual of the recorder.
- Download preset - channel, language, country / region settings ⇒ “Preset download” (see below)
- Set [VIERA Link] [On] in the Setup Menu ⇒ [VIERA Link] (p. 33)
- Set up the TV
  - After connection, turn the equipment on and then switch the TV on.
    - Select the input mode to HDMI1, HDMI2, HDMI3 or HDMI4 (p. 26), and make sure that an image is displayed correctly.
      - This setup should be done each time when the following conditions occur :
        - for the first time
        - when adding or reconnecting equipment
        - when changing setup

**Features available**

<table>
<thead>
<tr>
<th>Preset download</th>
</tr>
</thead>
<tbody>
<tr>
<td>Channel, language, country / region settings can be downloaded to the recorder.</td>
</tr>
<tr>
<td>DVB-C channel settings cannot be downloaded.</td>
</tr>
<tr>
<td>To download settings ⇒ [Download] (p. 34) or [Auto Setup] (p. 38) or “Auto Setup” - when first using the TV (p. 12, 13)</td>
</tr>
</tbody>
</table>

**Easy playback**

Automatic input switching - When the connected equipment is operated, input mode is switched automatically. When it is stopped operating, input mode is returned.

**Power on link**

Set Power on Link [On] in the Setup Menu to use this function ⇒ [Power on Link] (p. 34)
When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when the TV is in Standby mode.)

**Power off link**

Set Power off Link [On] in the Setup Menu to use this function ⇒ [Power off Link] (p. 34)
When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.

* This function will work even if the TV enters Standby mode automatically by auto power standby function.
Reduce unnecessary power consumption in standby [Standby Power Save]

Set Standby Power Save [On] in the Setup Menu to use this function ➤ [Standby Power Save] (p. 34)
The power consumption in Standby mode of the connected equipment is controlled higher or lower in synchronization with the TV On / Off state to reduce the consumption.
When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption in Standby mode of the connected equipment is automatically minimised.
When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased to make startup time early.
• This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.
• This function will work when [Power off Link] is set to [On].

Auto standby for unnecessary equipment [Intelligent Auto Standby]

Set Intelligent Auto Standby [On (With reminder)] or [On (No reminder)] in the Setup Menu to use this function ➤ [Intelligent Auto Standby] (p. 34)
When the TV is On, non/watched or non-used connected equipment goes into Standby mode automatically to reduce the power consumption. For example, when the input mode is switched from HDMI, when Speaker Selection is changed to [TV] (except for watching a disc).
• If you select [On (With reminder)], the on screen message will be displayed to be noticed before working this function.
• This function may not work properly depending on the connected equipment. If required, set to [Off].

Direct TV Recording - What you see is What you record [Direct TV Rec]

Recording the current programme in DIGA Recorder immediately.
• If you connect a variety of recorders including other manufacturers’ recorders at the same time, please connect DIGA Recorder to the TV’s lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, in this case connect DIGA Recorder to HDMI1.
• If you cannot operate, check the settings and the equipment ➤ “Summary of Q-Link and VIERA Link features” (p. 80, 81), “Preparations” (p. 83)
• If you wish to record the programme which DIGA Recorder does not support, SCART connection is required and the programme is recorded by Q-Link function (p. 82).
• Depending on the programme, SCART connection may be required to record.
• Changing channel or turning off the TV is available while the recorder is recording from its own tuner.
• Changing channel is not available while the recorder is recording from the TV tuner.

Display [VIERA Link Menu]

1
2
Select [Direct TV Rec] and start recording

VIERA Link Menu
Pause Live TV Start
Direct TV Rec Start
VIERA Link Control Recorder
Speaker Selection Home Cinema

To stop recording
Select [Stop] in [Direct TV Rec]

VIERA Link Menu
Pause Live TV Start
Direct TV Rec Stop
VIERA Link Control Recorder
Speaker Selection Home Cinema

• You can also stop recording directly.
Unlock the tuner

Tuner Locked
Press EXIT to unlock and stop recording

EXIT
Pause Live TV programme [Pause Live TV]

You can pause the live TV programme and resume later.
Live TV programme will be recorded on HDD of the connected DIGA Recorder.
  • This function is available with DIGA Recorder which has HDD.
  • If you connect a variety of recorders including other manufacturers’ recorders at the same time, please connect DIGA Recorder which has HDD to the TV’s lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, in this case connect DIGA Recorder which has HDD to HDMI1.
  • If you cannot operate, check the settings and the equipment

  ➤ “Summary of Q-Link and VIERA Link features” (p. 80, 81), “Preparations” (p. 83)

1 Display [VIERA Link Menu]

2 Select [Pause Live TV] and pause
The TV picture will be paused.

   VIERA Link Menu
   | Pause Live TV | Start |
   | Direct TV Rec | Start |
   | VIERA Link Control | Recorder |
   | Speaker Selection | Home Cinema |

  • Live TV programme is recorded on HDD from where it was paused.
  • If the paused TV picture disappears after a few minutes.

    OPTION (The paused picture will be restored)

  • Follow the operation guide to operate Pause Live TV function.

To operate Pause Live TV

- search backward
- pause
- search forward
- playback
- stop

  • If you stop playback, the recorded programme will be deleted from HDD.

To return to Live TV
(Stop playback of Pause Live TV / cancel pause)

Select [Yes]

   Pause Live TV
   | Stop Pause Live TV? |
   | Yes | No |

  • Operations may be different depending on the recorder. In this case, follow the operation guide or read the manual of the recorder.

  • If you stop playback or cancel pause, the recorded programme will be deleted from HDD.
You can control some functions of the connected equipment with this TV remote control (point the remote control at the TV’s signal receiver).

- If you cannot operate, check the settings and the equipment
  - “Summary of Q-Link and VIERA Link features” (p. 80, 81), “Preparations” (p. 83)
- For details of the operations for the connected equipment, read the manual of the equipment.

**Control the menu of the connected equipment by VIERA remote control [VIERA Link Control]**

1. **Display [VIERA Link Menu]**
2. **Select [VIERA Link Control]**
   - VIERA Link Menu
     - Pause Live TV: Start
     - Direct TV Rec: Start
     - VIERA Link Control: Recorder
     - Speaker Selection: Home Cinema

3. **Select the equipment you want to access**
   - The type of the connected equipment is displayed.
   - Select the type of the equipment and access.
   - VIERA Link Menu
     - Pause Live TV: Start
     - Direct TV Rec: Start
     - VIERA Link Control: Recorder
     - Speaker Selection: Home Cinema

   - You can also access directly by using VIERA TOOLS
   - “How to Use VIERA TOOLS” (p. 28)
   - The displayed item may vary depending on the connected equipment.
   - [Home Cinema] means Player theatre, Blu-ray Disc theatre or Recorder theatre.
   - [Other] means Tuner set top box.

**The menu of the accessed equipment**
(Input mode will be changed automatically)
### Operate the menu of the equipment

Available VIERA remote control buttons:

(Depending on the connected equipment)

1. **Set the position to “TV”**
   - DVD/VR, TV

2. **Follow the operation guide**
   - To display the operation guide
     - OPTION

   If other manufacturers’ equipment is accessed, Setup / Contents Selection menu may be displayed.
   - When the key words are displayed on colour bar
     - (red) (green) (yellow) (blue)

   **Note**
   - Some operations may not be available depending on the equipment. In this case use its own remote control to operate the equipment.

#### If multiple recorders or players are connected

<table>
<thead>
<tr>
<th>VIERA Link Menu</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Pause Live TV</td>
<td>Start</td>
</tr>
<tr>
<td>Direct TV REC</td>
<td>Start</td>
</tr>
<tr>
<td>VIERA Link Control</td>
<td>Recorder 2</td>
</tr>
<tr>
<td>Speaker Selection</td>
<td>[Recorder1-3 / Player1-3]</td>
</tr>
</tbody>
</table>

The number is given from the TV’s lower HDMI terminal number connected to the same type equipment. For example, two recorders to HDMI2 and HDMI3, in this case the recorder connected to HDMI2 is displayed as [Recorder1], and the recorder connected to HDMI3 is displayed as [Recorder2].

#### If you access non-VIERA Link equipment

<table>
<thead>
<tr>
<th>VIERA Link Menu</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Pause Live TV</td>
<td>Start</td>
</tr>
<tr>
<td>Direct TV REC</td>
<td>Start</td>
</tr>
<tr>
<td>VIERA Link Control</td>
<td>Recorder</td>
</tr>
<tr>
<td>Speaker Selection</td>
<td>[VIERA Link]</td>
</tr>
</tbody>
</table>

The type of the connected equipment is displayed.
You can access the menu of the equipment. But you cannot operate it. Use its own remote control to operate the equipment.
**Speaker control [Speaker Selection]**

You can control the theatre speaker with this TV remote control (point the remote control at the TV’s signal receiver).

- If you cannot operate, check the settings and the equipment
  - “Summary of Q-Link and VIERA Link features” (p. 80, 81), “Preparations” (p. 83)

1. **Display [VIERA Link Menu]**

2. **Select [Speaker Selection]**

   ![VIERA Link Menu]
   - Select [Speaker Selection]
   - Access [Home Cinema]

3. **Set to [Home Cinema] or [TV]**

   ![Select](select.png)
   - select
   - store

   **[Home Cinema]**

   Player theatre, Blu-ray Disc theatre or Amplifier will be automatically turned on if it is in Standby mode and the sound is from theatre speakers connected to the equipment.

   - Volume up / down
   - Mute
   - The sound of TV speakers is mute.
   - When the equipment is turned off, TV speakers will be active.

   **[TV]**

   TV speakers are active.

**Multi-channel sound**

If you wish to enjoy the multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect with HDMI cable and Optical digital audio cable (p. 81), and then select [Home Cinema]. If your Amplifier has “HDAVI Control 5” function, you can connect only with HDMI cable. In this case, connect your Amplifier to the TV’s HDMI2 terminal.

To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 81).

---

**Note**

- These functions may not work properly depending on the connected equipment.
- Image or sound may not be available for the first few seconds when input mode is switched.
- Easy playback may be available by using the remote control for Player theatre, Blu-ray Disc theatre or Amplifier. Read the manual of the equipment.
- “HDAVI Control 5” is the newest standard (current as of December, 2010) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
- To confirm this TV’s version of HDAVI Control ⇒ [System Information] (p. 36)
External Equipment

These diagrams show our recommendations for connection of your TV to various pieces of equipment. For other connections, consult the instructions for each piece of equipment, the table (p. 91), and the specifications (p. 102, 103).

To record / playback

Terrestrial aerial

or

RF cable

Fully wired SCART cable

DVD Recorder / VCR

To watch satellite broadcasts

Fully wired HDMI compliant cable

Set top box

HDMI equipment

Fully wired HDMI compliant cable

• HDMI connection (p. 96)
External Equipment

Network (wired)

Internet
Modem
Hub or Router

LAN cable (Shielded)

USB devices

Wireless LAN Adaptor

USB cable

USB HDD

PC

 Conversion adaptor (if necessary)

(Viewing)

Computer

(Listening)

To listen with speakers

Optical digital audio cable
Or

RCA cable

Amplifier with speaker system

To enjoy the sound from the external equipment in multi-channel sound (e.g. Dolby Digital 5.1ch), connect the equipment to the amplifier.
For the connections, read the manuals of the equipment and amplifier.
### Types of connectable equipment to each terminal

<table>
<thead>
<tr>

- **Recommended Connection**
- *1: Use HDMI1 for automatic input switching.
- *2: Use HDMI2 for connecting an amplifier. This connection is applicable when using an amplifier that has ARC (Audio Return Channel) function.
- *3: Use USB 1 port for connecting the USB HDD.
# Technical Information

## Auto Aspect

The optimum size and aspect can be chosen automatically, and you can enjoy finer images.  ➤ *(p. 20)*

### Aspect Control Signal

(WIDE) will appear in the top left of the screen if a Widescreen signal (WSS) or a Control signal through SCART / HDMI terminal is found.

The aspect will switch to the appropriate 16:9 or 14:9 widescreen ratio. This function will work in any aspect mode.

### Auto mode

Auto mode determines the best aspect ratio to fill the screen. It does this using a four step process (WSS, Control signal through SCART / HDMI terminal, Letterbox detection or Justify to fill the screen) to determine.

This process may take several minutes, depending on the darkness of the image.

Letterbox detection:

If black bands at the top and bottom of the screen are detected, Auto mode chooses the best ratio and expands the image to fill the screen.

If no aspect signals are detected, Auto mode enhances the image for optimum viewing pleasure.

(† **Note**

- The ratio varies depending on the programme, etc. If the ratio is out of the standard 16:9, black bands at the top and bottom of the screen may appear.
- If the screen size looks unusual when a widescreen-recorded programme is played back on a VCR, adjust the tracking of the VCR. Read the manual of the VCR.
### Supported file format in Media Player and media servers

**Note**
- Some files may not be played back even if they fulfill these conditions.
- Do not use two-byte characters or other special codes for data.
- The device may become unusable with this TV if the file or folder names are changed.

---

**DivX**

DivX Certified® to play DivX® and DivX Plus™ HD (H.264/MKV) video up to 1080p HD including premium content.

**ABOUT DIVX VIDEO**
DivX® is a digital video format created by DivX, Inc. This is an official DivX Certified® device that plays DivX video. Visit divx.com for more information and software tools to convert your files into DivX video.

**Subtitle text file of DivX**
Subtitles format - MicroDVD, SubRip, TMPlayer
- The DivX video file and subtitles text file are inside the same folder, and the file names are the same except for the file extensions.
- If there are more than one subtitles text files inside the same folder, they are displayed in the following order of priority: “.srt”, “.sub”, “.txt”.
- To confirm or change the current subtitle status while playing DivX content, press the OPTION button to display Option Menu.
- Depending on the methods used to create the file or the state of recording, only parts of the subtitles may be displayed, or the subtitles may not be displayed at all.

**Note**
- Depending on how you make SD Card, USB Flash Memory or the media server, files and folders may not be displayed in the order you numbered.
- Depending on how you create the files and the structure of folders, the files and folders may not be displayed.
- When there are many files and folders, operation may take time to complete or some files may not be displayed or playable.

**ABOUT DIVX VIDEO-ON-DEMAND**
This DivX Certified® device must be registered in order to play purchased DivX Video-on-Demand (VOD) movies. To obtain your registration code, locate the DivX VOD section in the Setup Menu. Go to vod.divx.com for more information on how to complete your registration.

**To show DivX VOD registration code**
- [DivX® VOD] in the Setup Menu (p. 36)
- If you want to generate the new registration code, you have to deregister the present registration code.
  After playing DivX VOD content once, the confirmation screen to deregister will be displayed in [DivX® VOD] in the Setup Menu. If you press the OK button on the confirmation screen, the deregistration code will be generated and you will not be able to play any contents that you purchased using the present registration code.
  You will obtain the new registration code by pressing the OK button on the deregistration code screen.
- If you purchase DivX VOD content using a registration code different from this TV’s code, you will not be able to play this content. ([Your device is not authorized to play this DivX protected video.] is displayed.)

**Regarding DivX content that can only be played a set number of times**
Some DivX VOD content can only be played a set number of times.
When you play this content, the remaining number of plays is displayed. You cannot play this content when the number of remaining plays is zero. ([This DivX rental has expired.] is displayed.)
- When playing this content, the number of remaining plays is reduced by one in the following conditions:
  - If you exit the current application.
  - If you play the other content.
  - If you go to the next or previous content.
Devices for recording or playing back

**SD Card** (for playing back in Media Player)
Card format: SDXC Card - exFAT
SDHC Card / SD Card - FAT16 or FAT32
Compliant card type (maximum capacity): SDXC Card (64 GB), SDHC Card (32 GB), SD Card (2 GB), miniSD Card (2 GB) (requiring miniSD adaptor)
- If miniSD Card is used, insert / remove it together with the adaptor.
- Check the latest information on the card type at the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/
- Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.

**USB Flash Memory** (for playing back in Media Player)
USB Flash Memory format: FAT16, FAT32 or exFAT
- A USB HDD formatted by PC is not supported in Media Player.

**USB HDD** (for recording the digital TV programmes with this TV and playing back in Media Player)
The capacity of USB HDD that have been tested for the performance with this TV: From 160 GB to 3 TB
- Connect the USB HDD to the socket outlet to record and play back properly with this TV.
- Format the USB HDD with this TV in order to use it. *(p. 53)*
- Regarding the performance, not all USB HDDs are guaranteed. Check the USB HDDs that have been tested for the performance with this TV at the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/

**Note**
- Data modified with a PC may not be displayed.
- Do not remove the device while the TV is accessing data (this can damage device or TV).
- Do not touch the pins on the device.
- Do not subject the device to a high pressure or impact.
- Insert the device in the correct direction (otherwise, device or TV may be damaged).
- Electrical interference, static electricity, or erroneous operation may damage the data or device.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. (Panasonic is not liable for any deterioration or damage of recorded data.)

HDMI connection

HDMI (high-definition multimedia interface) is the world’s first complete digital consumer AV interface complying with a non-compression standard. HDMI allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment. HDMI-compatible equipment*1 with an HDMI or DVI output terminal, such as a DVD player, a set top box or a game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable.

About connections, see “External Equipment” (p. 89).

Applicable HDMI features
- Input audio signal :
  2ch Linear PCM (sampling frequencies - 48 kHz, 44.1 kHz, 32 kHz)  
  3ch Linear PCM (sampling frequencies - 88.2 kHz, 96 kHz)
- Input video signal :
  480i, 480p, 576i, 576p, 720p, 1080i and 1080p
  *“Input signal that can be displayed” (p. 98)
  Match the output setting of the digital equipment.
- Input PC signal :
  *“Input signal that can be displayed” (p. 98)
  Match the output setting of the PC.

DVI connection

If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adaptor cable*3. When the DVI to HDMI adaptor cable is used, connect the audio cable to the audio input terminal (HDMI1 / 2 / 3 : use AUDIO IN terminals / HDMI4 : use AV2 audio terminals).

Note
- Audio settings can be made on the [HDMI / 2 / 3 / 4 Input] in the Sound Menu. (p. 33)
- If the connected equipment has an aspect adjustment function, set the aspect ratio to “16:9”.
- These HDMI connectors are “type A”.
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- Equipment having no digital output terminal may be connected to the input terminal of “COMPONENT” or “VIDEO” to receive analogue signals.
- This TV incorporates HDMI™ technology.

*1 : The HDMI logo is displayed on HDMI-compliant equipment.
*2 : Audio Return Channel (ARC) is a function to be able to send digital sound signals via an HDMI cable.
*3 : Enquire at your local digital equipment retailer shop.

PC connection

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.
- PC signals that can be input : Horizontal scanning frequency 31 to 69 kHz; vertical scanning frequency 59 to 86 Hz (more than 1,024 signal lines could result in incorrect display of the image).
- A PC adaptor is not necessary for the DOS/V-compliant D-sub 15-pin connector.

Note
- Some PC models cannot be connected to this TV.
- When using PC, set the colour display quality of PC to the highest position.
- For details of the applicable PC signals
  “Input signal that can be displayed” (p. 98)
- D-sub 15-pin connector signal

**USB connection**

- It is recommended to connect the USB HDD or USB Flash Memory directly to the TV's USB ports.
- Some USB devices or USB HUB may not be used with this TV.
- You cannot connect any devices by using USB card reader.
- You cannot use two or more same kind of USB devices simultaneously except USB Flash Memory or USB HDD.
- Additional information for USB devices may be on the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/

**USB Keyboard**

- The USB Keyboard which requires the driver is not supported.
- To change the language type ➤ [USB Keyboard Layout] (p. 36)
- Characters may not be displayed correctly on the TV screen depending on the connected keyboard or the keyboard layout setting.
- Some of the keys of USB keyboards may correspond to the operation of the remote control.

<table>
<thead>

<td>Cursor buttons</td>
</tr>
</tbody>
</table>

**Characters table for numeric buttons**

You can enter characters by using numeric buttons for free input items.

<table>
<thead>
<tr>
<th>User input</th>
<th>The number of times to press</th>
</tr>
</thead>
<tbody>
<tr>
<td>Name</td>
<td>1 2 3 4 5 6 7 8 9 10 11</td>
</tr>
<tr>
<td>a b c d e f</td>
<td>Press the numeric button repeatedly until you reach the desired character.</td>
</tr>
<tr>
<td>g h i j k l</td>
<td></td>
</tr>
<tr>
<td>m n o p q r</td>
<td></td>
</tr>
<tr>
<td>s t u v w x</td>
<td></td>
</tr>
<tr>
<td>y z</td>
<td></td>
</tr>
<tr>
<td>Space</td>
<td>0</td>
</tr>
</tbody>
</table>

- The character is set automatically if you leave for 1 second.
- You can also set the character by pressing the OK button or other numeric buttons within 1 second.

<tr>
<td>1,920 × 1,080 @60 Hz</td>
<td>67.50</td>
<td>60.00</td>
</tr>
</tbody>
</table>

Applicable input signal for PC is basically compatible to HDMI standard timing.

**Note**

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.
- PC signal is magnified or compressed for display, so that it may not be possible to show fine detail with sufficient clarity.
FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem. If the problem still persists, please contact your local Panasonic dealer for assistance.

Block noise, frozen or disappearing image occurs in DVB mode / White spots or shadow image (ghosting) occurs in Analogue mode / Some channels cannot be tuned
- Check the position, direction and connection of the aerial.
- Check [Signal Condition] (p. 41). If [Signal Quality] is displayed in red, the DVB signal is weak.
- Weather conditions will affect signal reception (heavy rain, snow, etc.), in particular in poor reception areas. Even during good weather, the high pressure can cause poor reception of some channels.
- Due to the digital reception technologies involved, quality of the digital signals may be relatively low in some cases, despite good reception of analogue channels.
- Turn the TV off with the Mains power On / Off switch, and then on again.
- If problem persists, consult your local dealer or service provider for the availability of services.

No programmes shown on TV Guide
- Check the digital transmitter.
- Adjust the direction of the aerial to another transmitter installed nearby.
- Check the analogue broadcast. If the image quality is poor, check the aerial and consult your local dealer.

Neither image nor sound is produced
- Is the TV in AV mode?
- Check the correct input mode is selected.
- Check the mains lead is plugged into the socket outlet and the TV is turned on.
- Check the Picture Menu (p. 30, 31) and volume.
- Check all required cables and connections are firmly in place.

Auto aspect
- Auto aspect is designed to provide you with the best ratio to fill the screen. ➔ (p. 92)
- Press the ASPECT button if you would like to change the aspect ratio manually. ➔ (p. 20)

Black and white picture
- Check that the output of the external equipment matches the input of the TV.
  When connecting with SCART, ensure the output setting of the external equipment is not S-Video.

Input mode, i.e. EC/AV 1 remains on the screen
- Press the button to clear these.
  Press again to redisplay.

Q-Link function does not work
- Confirm SCART cable and connection.
  Also set [AV 1 out] in the Setup Menu. ➔ (p. 33)

[VIERA Link] function does not work and an error message appears
- Confirm the connection. ➔ (p. 80, 81)
- Turn the connected equipment on and then switch the TV on. ➔ (p. 83)

Recording does not start immediately
- Check the settings of the recorder. For details, read the manual of the recorder.

There may be red, blue, green and black spots on the screen
- This is a characteristic of liquid crystal panels and is not a problem. The liquid crystal panel is built with very high precision technology giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of red, green, blue or black. Please note this does not affect the performance of your LCD.

<th>Problem</th>
<th>Actions</th>
</tr>
</thead>
</table>
| Chaotic image, noisy | • Set [P-NR] in the Picture Menu (to remove noise). (p. 30)  
• Check nearby electrical products (car, motorcycle, fluorescent lamp). |
| No image can be displayed | • Is [Contrast], [Brightness] or [Colour] in the Picture Menu set to the minimum? (p. 30) |
| Blurry or distorted image (no sound or low volume) | • Reset channels. (p. 37, 38) |
| Unusual image is displayed | • Turn the TV Off with Mains power On / Off switch, then turn it On again.  
• If the problem persists, initialise all settings [Shipping Condition] (p. 50) |
| No sound is produced | • Is “Sound mute” active? (p. 8)  
• Is the volume set to the minimum? |
| Sound level is low or sound is distorted | • Sound signal reception may be deteriorated.  
• Set [MPX] (p. 32) in the Sound Menu to [Mono]. (Analogue only) |
| Sound is unusual | • Set the sound setting of the connected equipment to “2ch LPCM”.  
• Check the [HDMI1 / 2 / 3 / 4 Input] setting in the Sound Menu. (p. 33)  
• If digital sound connection has a problem, select analogue sound connection. (p. 96) |
| Pictures from external equipment are unusual when the equipment is connected via HDMI | • Check the HDMI cable is connected properly. (p. 89)  
• Turn the TV and equipment Off, then turn them On again.  
• Check an input signal from the equipment. (p. 98)  
• Use equipment compliant with EIA/CEA-861/861D. |
| Cannot connect to the network | • Check the LAN cable or Wireless LAN Adaptor is connected properly. (p. 70)  
• Check the connections and settings. (p. 70 - 75)  
• Check the network equipment and network environment.  
• The router may not be set to issue IP address automatically. If the network administrator prefers to allocate an IP address, set an IP address manually. (p. 72)  
• The router may be using MAC address filtering (security setting).  
• Confirm the MAC Address of this TV (p. 75) and set the router to be able to use it.  
• If the problem persists, consult your Internet Service Provider or telecommunications company. |
| Cannot select the file during DLNA operations | • Is media server of the connected equipment prepared? (p. 69)  
• Check applicable data format. (p. 93) |
| Cannot operate VIERA Connect | • Check the connections and settings. (p. 70 - 75)  
• The server or connected line might be busy now. |
| The TV does not switch On | • Check the mains lead is plugged into the socket outlet. |
| The TV goes into Standby mode | • Auto power standby function is activated. (p. 9)  
• The TV enters Standby mode about 30 minutes after analogue broadcasting ends. |
| The remote control does not work or is intermittent | • Are the batteries installed correctly? (p. 7)  
• Has the TV been switched On?  
• The batteries may be running low. Replace them.  
• Point the remote control directly at the front of the TV (within about 7 m and a 30 degree angle of the front of the TV).  
• Situate the TV away from sunshine or other sources of bright light not to shine on the TV’s remote control signal receiver. |
| Parts of the TV become hot | • Even when the temperature of parts of the front, top and rear panels has risen, these temperature rises will not pose any problems in terms of performance or quality. |
| The LCD panel moves slightly when it is pushed with a finger | • There is some flexibility around the panel to prevent damage to the panel.  
• The panel might move slightly when it is pushed with a finger, and clattered sound might be heard. This is not a malfunction. |

| Overcurrent error message appears | • The connected USB device might cause this error. Remove the device and turn the TV Off with Mains power On / Off switch, then turn it On again.  
• Check if foreign objects are inside the USB port. |
| An error message appears       | • Follow the message’s instructions.  
• If the problem persists, contact your local Panasonic dealer or the authorized Service Centre. |

Information for Users on Collection and Disposal of Old Equipment and used Batteries

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries should not be mixed with general household waste. For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points, in accordance with your national legislation and the Directives 2002/96/EC and 2006/66/EC. By disposing of these products and batteries correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment which could otherwise arise from inappropriate waste handling.

For more information about collection and recycling of old products and batteries, please contact your local municipality, your waste disposal service or the point of sale where you purchased the items.

Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

For business users in the European Union
If you wish to discard electrical and electronic equipment, please contact your dealer or supplier for further information.

[Information on Disposal in other Countries outside the European Union]
These symbols are only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

Note for the battery symbol (bottom two symbol examples):
This symbol might be used in combination with a chemical symbol. In this case it complies with the requirement set by the Directive for the chemical involved.

Declaration of Conformity (DoC)
